

School Board May Receive A Resignation

Superintendent Wheatley Will Probably Withdraw From Position Tonight at Meeting—Long Story Behind Prospective Action.

It became known today that at tonight's meeting of the city school board, the resignation of F. J. Wheatley, superintendent of city schools, and for the past 36 years associated with the Danville school system, will be presented. It is understood that the resignation will be tendered on the understanding that Mr. Wheatley will be added to the High School faculty as teacher of mathematics, although it was evident today that some change of hour might be made, thus being the school board. Mr. Wheatley is the principal of the two North Danville schools, with the added responsibility of being secretary of the Board of Trustees, a position which for years has been held by Wilbur Riedeman at a nominal salary. The resignation is understood, contemplates retaining Mr. Wheatley's services at virtually the same salary as that of the position of school superintendent.

Behind tonight's prospective action is a long story dating back to when Mr. Wheatley's re-election as superintendent of Danville schools took place in Richmond. On that occasion he was re-elected for a term of four years, and by virtue of his re-election his position for three additional years is secured. However, he desired to resign voluntarily. At the time of his election by the board, opposition to him developed, but his record was clear and as no charges were preferred against him, the board re-elected him. There seemed to be a verbal agreement between Mr. Wheatley and Harris Hart, superintendent of public instruction, providing for Mr. Wheatley's resignation in the event his services did not prove satisfactory.

From what can be learned outside official circles, where there is marked reticence, matters came to a crisis quite recently, when Mr. Wheatley expressed himself favorable to a bond issue for the providing of a new high school. A. C. Conway, chairman of the board, was understood to be opposed to a bond issue at this time, while Mr. Wheatley has been advocating it, supported by local civic agencies who appreciate the crowded conditions at the High School, and the necessity of some improvement in the colored schools. Mr. Wheatley's attitude is gauged correctly, he is prepared to step down before the wishes of a majority of the school board, two members being favorable to him. He is prepared to relinquish the superintendency which he has held for the past 14 years, with a previous consecutive record of 22 years as principal of Belle Bellevue school, provided he is retained as a teacher in the High School. If Mr. Wheatley teaches during the ensuing five years, it is learned, he will be entitled to a pension under the state law. Such a pension would not be available, were he to continue for the next five years in the capacity of superintendent or principal. It is understood that he does not wish to become principal of the North Danville schools, but prefers to be attached to the High School faculty in the capacity of teacher of mathematics.

A meeting of the schoolboard was held yesterday and this question was discussed. The board is further stated, being reconciled to Mr. Wheatley's plan, provided this is satisfactory to Sidney B. Hall, principal of the High School.

Friends of the superintendent believe that he will decline to resign, unless a satisfactory counter proposal is made. He is further stated, being reconciled to Mr. Wheatley's plan, provided this is satisfactory to Sidney B. Hall, principal of the High School.

When Mr. Wheatley was re-elected as superintendent for the next three years under the terms of his election by the State Board of Education last year, he was reluctant to make any statement prior to the meeting. It was learned, however, that he has not yet tendered his resignation to the board and that there was the possibility of his declining to do so. Much will depend upon the attitude toward him by the board tonight.

A. C. Conway, chairman of the Board of School Trustees, was also seen at his office this afternoon. He felt that in justice to Mr. Wheatley, he could not discuss the matter, neither one way nor the other. He took the view that he was only one member of the school board and could not speak for the entire board. Questioned specifically, he said that it was by no means certain that any matter relative to the superintendent would come up tonight. He declined to speculate on the report which has been current among teachers for a day or two, and the more widely disseminated rumors current about the town today. He admitted seeing Principal Hall last night, but would not discuss this meeting or its relation to Mr. Wheatley's appointment to the High School faculty. The meeting tonight will be a regular meeting and routine matters will come up in their usual sequence. The meeting will be held at 8 o'clock in the evening, at the school board session. In this regard, Mr. Conway said that the board tonight might hold an executive session, at which time both spectators and the press would be excluded. The inference drawn from this was that the Wheatley matter would be aired "in camera" and that it would not be a public session.

In the event of Mr. Wheatley's resignation being tendered and accepted this would not perturb the present status of affairs until the end of the school session, and Mr. Wheatley would continue in the capacity of superintendent until that time.

Hey! How's the Weather Up There?

Major Page, said to be the smallest man in the world, recently met Earl Richter, the tallest man in Minneapolis. The major is 35, is 32 inches high and weighs 26 pounds. Richter, 29, is six feet seven and weighs 232.

Tents Sheltering Homeless Negroes

Norfolk Takes Prompt Measures to Meet Emergency in Fire at Berkeley.

(By The Associated Press.)
NORFOLK, April 14.—With the break of day, the city was preparing relief measures for 1,500 negroes rendered homeless by the fire at Berkeley, a suburb, last night, which wiped out approximately 300 homes. Officials estimate the damage at \$150,000. Tents from the navy yard were set up at St. Helena reservation to shelter victims. Boys playing ball are believed to have started the fire with cigarettes.

Mothers' Day To Be Observed Here On May 14

Following the custom of former years Danville will celebrate Mothers' day by a mass meeting for men in the Ridge Street tabernacle on Sunday afternoon, May 14.

The celebration is promoted under the joint auspices of the Ministers' association, the Men's Federated Bible classes and the Y. M. C. A.

A meeting of representatives of the Men's Bible classes of the city with Edwin Kettle, general secretary of the Y. M. C. A., as chairman, was held recently in the Y. M. C. A. building, the various committees to arrange the details of the celebration were elected.

The committees are seeking to secure an out-of-town speaker of reputation and prominence and will do all in their power to make the coming Mothers' day celebration worthy of the occasion and of the organizations behind it.

New Golf Professional Arrived Last Night

Bob Hayes, the newly-appointed professional for the Danville Golf Club, arrived here yesterday from Southern Pines, N. C., to remain for the playing season at the Danville club. Mr. Hayes is a well known player and already well known to a few Danville men who last season played at Southern Pines.

SIX THOUSAND HOMELESS

(By The Associated Press.)
BEADSTOWN, ILL., April 14.—Over six thousand persons are homeless or living on second floors as a result of the Illinois river rise.

INTERNATIONAL DOPE RING

The vast extent of the dope trade in London has been revealed by investigations prompted by drug deaths of women noted in London's half-world.

Police and detectives from Scotland Yard have been acting since London newspapers published details showing the international character of the vast traffic. Night clubs are growing cautious and the skulking vendors of cocaine and morphine are falling victims to the authorities.

But the trade goes on and the victims are growing steadily in number.

The United Press assigned one of its most experienced reporters attached to the London bureau to ferret out the facts and tell the into United Press readers.

The story scored by Charles McCann, will appear in:

THE SUNDAY REGISTER

Taxes So High Russians Forced To Secret Trade

BY EDWIN NIV HULLINGER.
MOSCOW, April 13.—A "back door" commerce, carried on through the back doors of private homes, has begun to flourish in Moscow on account of the crushing heavy overhead costs, taxes, rent, license fees, etc., connected with legitimate stores, with conventional front doors and official show-windows.

Already this unofficial kind of trade has reached such proportions that in some instances it successfully competes with the regular stores. Some of the "back-door" establishments have larger and finer stocks accumulated by combing the markets, than the front-window stores.

The choicest millinery shop in Moscow, many art and antique stores, and the best drug stores are of this character.

They do not advertise, of course. Their trade comes by the friend-quietly-tells-friend route. But in Moscow, the greatest whisper-it-about city in the world, this method is effective.

In company with Russian friends, I visited four or five of these "stores."

To reach the millinery shop, we left our sleigh in the courtyard of an immense white house which must have been the residence of a former nobleman. We turned into a tiny door, into jet darkness. My guide led me up two flights and pushed a door. We literally fell into a lighted, narrow corridor. We entered a room. The milliner herself opened the door. The general impression of the room was that of a family storeroom in a middle western home in the United States.

On a glass sideboard near the door were three or four new hats, running to bright greens and browns. The milliner produced several others she was making to order. The hats were all simple, but tasteful. The prices ranged from three to four to eight million rubles.

Seated at one of the tables was a soberly-dressed woman. Upon it, conversation with one of the clerks. The "house," however, would not give her what she thought her jewels were worth.

Spread across one of the boxes was the most exquisite Oriental shawls have ever seen. Upon it, a dainty little pair of Tartar mittens—white leather, with a design in silk thread on the back. For them, the proprietor asked only 600,000 rubles (about \$150 at the present rate of exchange).

She then produced a lace scarf which my friend said was one of the finest pieces of lacework she had seen.

After wandering for five minutes through one hallway after another, we finally reached the front stairway leading into a beautiful reception hall. A couple of Red soldiers sat at a desk near the doorway (which would indicate that the shop was operating under government protection), one let us out the front door, without asking how we got in.

With another Russian friend I went to a "back-door" drug store which, so far as I could judge, was running without the knowledge of the Kremlin.

We groped through a dark courtyard, as before, and skirted the rear of a building, and finally reached a woman of perhaps 28. The drug store was a cupboard in the kitchen. Yet it contained, my friend explained, one of the best stocks of chemicals in that part of the city.

"We used to give our jewels for castor oil," the wife of a former Russian ambassador told me.

Fireman Harrell Reported Better

The condition of Fireman H. R. Harrell of the Southern railway who was scalded last night when a road engine and a switch engine collided on the local yards was reported at the General hospital today as very much improved. He is painfully injured from the ankles to the knee from steam emanating from a feed pipe.

The accident happened at 9:30 o'clock when both engines which were detached were running along parallel tracks which merge at a switch. The engines came together at that point where the two sets of rails joined the yard engine being badly damaged and the other locomotive less seriously.

H. C. Ferguson had charge of the switch engine and T. B. Sharp, Fireman Mike Moseley was engineer of the road engine, Harrell being his fireman.

The actual cause of the accident could not be explained at the local yards today. It was said that it would be five or six days before a report would be made on the affair following an investigation.

Committee Reports Adversely on Law Regarding Carnivals

It was learned today that the city council finance committee has made an adverse report to the council on the proposed ordinance which empowers the mayor to withhold a permit from carnival companies and further supporting him by the power to levy penalty for infraction of the city's ruling. The ordinance will have to run the gauntlet of the entire council, however. Three members compose the committee, two of whom were present at yesterday's meeting. The council is composed of nine members.

"Pussyfoot" Is Coming Here To Make Speech

"Pussyfoot" Johnson, a noted temperance worker and known the world over because of his firm fight against whisky, will be here to address the city in the near future. The date is Friday, June 2, and the place is the tabernacle.

The announcement was made this morning by Edwin Kettle, secretary of the Y. M. C. A. It is understood that practically all of the churches of the city have been active in effecting a speaking engagement for Johnson and a coming under the auspices of the "World League Against Alcoholism," and local persons interested have succeeded in making Danville one of the cities in which he will deliver a lecture while on his tour.

Johnson is just back from India and his speech will be one of law enforcement and world uplift, the subject of which will be "The New India."

Sessions in Court Were Resumed Today

The session of the Corporation court was resumed this morning with several of the so-called "sugar cases" set for hearing. The Warner Sugar Refining Company has instituted actions against C. H. Dodson and C. H. Royal (Case No. 1) and W. S. Morrison and company to collect on sugar shipments which were refused by the local concerns because, it is claimed, these shipments were made only after the sugar market had broken.

UNSIGNED LETTER CONTAINS SLANDER, COURT DECIDES

RALEIGH, N. C., April 13.—The sending of an unsigned letter containing accusations to a minor constitutes slander, according to the decision of the supreme court today in the case of Hodepeth against Coleman, Granville county. H. G. Coleman, merchant of Lyons, had some goods stolen from him. A few days thereafter Hodepeth found a letter addressed in him in his regular night box, in which it was suggested that the writer saw him the day before, knew he was the person who robbed the store and told him that if the goods were placed back in the cartage of the shed to the store that night nothing more would be done. If the goods were not returned, the federal pen was staring him in the face. The letter was dated at Washington, D. C.

There was no signature, but an expert typist testified in the lower court that the letter was written on an Oliver typewriter, which did work with all the characteristics of the one owned by Coleman. In addition, there were certain characteristics of the writer which appeared in other letters written and signed by Coleman with which they were being compared. Coleman testified that he did not write the letter, but knew of it being written.

The lower court held against Coleman and awarded \$100 damages. The supreme court sustains this judgment.

Phantom Burglar Finally Captured

Lady Astor To Be In Richmond May 2

News was received here this morning that the Lady Nancy Astor, who is soon to arrive in New York for a tour has consented to make an address in Richmond at the invitation of the Southern Woman's Educational Alliance. May 2. Carriage will enable the local committee to appointed stage a home-coming celebration for her in Danville to make their plans accordingly since it is almost certain that she will come to Danville on from Richmond.

The resolution to be presented to the city council tonight and which was suggested by the Wednesday Afternoon club, provides for the telegraphing of an invitation to the visitor upon her arrival in New York and the appointment of a central committee of which the president of the council should be provided. The chairman ex-officio. The resolution also provides that the homecoming celebration be thoroughly in keeping with the importance of the occasion.

The committee on public welfare is to meet this afternoon and, among other things will be presented with a petition signed by 40 residents of Broad street opposing any change in the name of the street. The petition asking that the name of the street be changed to "Langhorne" street is signed by 60 residents. Examination of both petitions show that the committee on public welfare counter petition being circulated last.

The point was clearly emphasized today that those opposing the change do not wish in any way to reflect on Lady Astor. The principal involved in the opposition is that signatories to the petition "seriously object to the changing of the name of Broad street." They would, it is understood, oppose the substitution of any name other than that by which it is now known. One of the leaders opposing the change stated today that Broad street as a whole would probably turn out en masse to do honor to the visitor if she comes here. He was especially desirous of making it plain that those opposing the changing of the name are actuated by no animosity towards the former Danville woman.

With the council committee already on record unanimously recommending that the street be changed, this action being taken before the counter petition was circulated, efforts will be made this afternoon to have that action rescinded and the matter passed by and negative action taken.

Predict Storms Easter in Belfast

(By The Associated Press.)
BELFAST, April 14.—A stormy Easter is predicted as the result of a concerted attack on constables last night, wounding four.

WILL TOOT HIS OWN HORN

RALEIGH, N. C., April 13.—Parading up and down the streets and shouting through a megaphone will be the method used by Philip Brockwell of this city in letting the citizenry know that he is a candidate for the Legislature on the Democratic ticket.

He announced today, Brockwell said that if he is elected he will introduce a bill proposing capital punishment for "first degree rent profiteering."

Financial Choos Before Conference

The Merrill Coal Mines in Logan county, West Virginia, which are operated by a local concern and local capital, are working on merrily, despite the nationwide coal strike. One of the officials said today that it was a non-union mine, and that thus far it had not been affected by a walk-out. Coal is being sold now at the cheapest price recorded since the mine was opened.

Greece King Is Recovering

(By The Associated Press.)
ATHENS, April 14.—King Constantine, who was seized with a sudden attack of vomiting, has nearly recovered.

McCormick Has Passed Crisis

(By The Associated Press.)
NEW YORK, April 14.—John McCormick, noted tenor, ill with a throat affection, has passed the crisis, but will not be ready for several months.

Five Firemen Hurt in Crash

(By The Associated Press.)
PORTSMOUTH, April 14.—Five firemen were injured, three seriously, when fire apparatus and an automobile collided on route to a fire which destroyed four homes.

Brinson Funeral Is Held Today

(By The Associated Press.)
NEW BERN, N. C., April 14.—The funeral of Representative Samuel M. Brinson, of the third district, who died yesterday, will be held at 3 o'clock at the First Baptist church. Interment will be made in Cedar Grove cemetery.

More Bad Checks By Broach Found

Police officers investigating the case of W. H. Broach, an alleged check forger who is being held here on several such charges have brought to light several more instances in which Broach is alleged to have passed such papers. About half dozen such cases have been discovered but all of the checks were for small amounts. Broach is also wanted in Henry county on check forging charges.

Widow of Slain Man Ends Life

Mrs. Anna Glickstein Leaps From Third Story Window in Brooklyn.

(By The Associated Press.)
NEW YORK, April 14.—Mrs. Anna Glickstein, widow of Dr. Abraham Glickstein, who was shot and killed by Mrs. Lillian Razen last December, ended her life today by leaping from a third story window in Brooklyn.

Mrs. Razen, who confessed to shooting the doctor, is awaiting trial on a charge of murder. Dr. Glickstein's mother fell dead at the funeral of her son.

Negress Is Fined On Assault Charge

Pearl Terry, a negress, was fined \$20 and costs in the mayor's court this morning for an alleged assault on Mrs. Jake Silverman. The attack occurred yesterday at Mrs. Silverman's home on Wilson street. From the evidence, the negro, who was employed as a nurse, became negligent, and when she was approached by Mrs. Silverman about the matter she became offensive and finally made the attack. The negress continued her attack until Mrs. Silverman screamed. During the affair Mrs. Silverman received several bruises about the face.

Senator Gravatt Dies in Richmond

(Special to The Bee.)
RICHMOND, April 14.—Dr. Charles U. Gravatt, a member of the state Senate, died here this morning. He was nearly 80 years old, and was for a long time a surgeon in the United States navy.

Former Danville Druggist Critically Ill in Carolina

News was received here today of the critical illness at Southern Pines, N. C., of R. E. Wiley, who will be recalled, doubtless, by many as the proprietor of a drug store in North Danville. He left this city between 12 and 15 years ago. Mr. Wiley is suffering from bronchial pneumonia in its most acute phase and considerable anxiety is entertained regarding his recovery.

"Panama & felt hats cleaned. Powell's. 4-12B6"

SHOES KNOCKED OFF BUT SHE IS UNINJURED

To be knocked out of one's shoes leads to the presumption of a mighty wallop.

That is just what happened to a woman at the corner of Main street and Jefferson avenue last night at about 7:30 o'clock.

A gentleman was coming down Main street in his car when he noted a woman standing in the car tracks. As he neared her she ran directly in front of his machine. It was impossible to avoid striking her, but brakes were applied and the car perceptibly slowed when the woman was struck. The blow knocked her several feet directly in front of the car, which moved ahead and would have passed over her had she not caught hold of the bumper. She was dragged several feet before the car was brought to a stop.

The driver of the machine jumped out and ran to the woman and helped her to her feet and inquired as to her injuries.

The woman did not reply as she was perfectly satisfied and said, "Hand me my shoes."

These she put on and without saying another word walked off down the street, apparently unharmed.

Needless to say the driver of the car was greatly relieved and was perfectly willing to overlook the seeming brusqueness of the woman who had been knocked down.

MANY MATTERS TAKEN UP AT Y. M. B. C. MEET

The regular monthly business meeting of the Young Men's Business Club was held last night. An agenda covering 18 subjects was prepared for the meeting and all of these points were taken up and discussed.

Among the various questions discussed were unemployment, community chest, May Festival, quarterly suppers, paint up and clean up campaign, street signs, photographs of members educational classes, conventions for 1923, commercial college, cheaper freight rates for Danville, D. M. 1. drive, group plan of conducting business, swimming pool, storage houses and finances.

In regard to the employment bureau it was brought out at the meeting that this service is free to both male and female white and colored. Many people have already taken advantage of the service.

The May Festival was brought up and discussed and received the unanimous endorsement of the club, the members of which have pledged themselves to work for its success.

The matter of securing conventions for 1923 was broached and discussed and the club plans to take definite steps to secure a convention for this city next year.

A swimming pool at Ballou Park was discussed and the club plans to ask the city council to appropriate money for this much needed natatorium.

The report of the finance committee was read and this showed that the club's financial condition was sound.

PLAN RADIO CLUB HERE

A radio club for Danville is planned.

A meeting to this end has been called for tonight at 8 o'clock at the Y. M. C. A. All who are interested in radiophone or radiograph or radio—of whatever sort, are urged to attend this meeting, which will be primarily an organization assembly.

Radio fans hope that an organization will stimulate interest in the science here and will enable a larger degree of local control, which is getting to be more and more necessary in order that any satisfaction be gotten out of radio service.

When the organization has been effected, code charts will be formed and technical instructions will be given to beginners.

SPECIAL MUSIC AT EPIPHANY SUNDAY

Special music is planned for tonight at Epiphany church when a Good Friday cantata will be presented. Twenty-five persons will compose the principals and chorus. The subject of the cantata is "The Last Seven Words of Christ," by A. Monestel. The musical service will start promptly at 8 o'clock.

The cantata is a beautiful story of the Crucifixion set to music and the choir has been practicing for about ten days under the direction of M. B. Ramos. The choir is composed of the members of the regular church choir supplemented by singers from the choir of the other churches of the city. Miss McMillan is organist.

Special music has also been arranged for the Sunday morning services at Epiphany church.

—Mrs. Ralph Baker, of Roanoke, is expected today and will spend Easter with friends here.

Buster's Wooden Leg

Buster, the pet of Edward Kane, Pittsburgh, Pa., has been wearing a wooden leg two years and set around with the best of them. A few years ago dogs were shot when they broke or lost a leg.

Move Into New Hilltop Monday

At a meeting of the stockholders of the Anti-Tuberculosis League of Danville the following board of directors was chosen:

George P. Geoghegan, C. J. Parrott, J. W. Yarbrough, Dr. C. E. Harper, H. F. Vass, Mrs. J. E. Perkins, Mrs. W. T. Walters, J. M. Seegar and John B. Harvie.

The report of the president was read and the recommendations embodied in the report of the Dibrrell property be disposed of at the earliest available time and the proceeds invested as a fund for an endowment fund were unanimously adopted. Other recommendations embodied in the report of the president were also adopted.

After the stockholders meeting a called meeting of the board of directors was held to consider the immediate needs of Hilltop Sanitarium. The directors authorized the purchase of needed equipment. Two large refrigerators are the most-needed at the present time.

In this connection it will be noted that \$2,710 has been contributed for equipment.

Hilltop Sanitarium will get into its new plant Monday and the finishing touches on the building and the moving in of equipment is being rushed.

Following is the report of J. M. Seegar, retiring president:

To the Members of the Anti-Tuberculosis League of Danville, Virginia: Ladies and Gentlemen: You are called together tonight in accordance with the constitution and by-laws of the league to elect a board of directors for the ensuing year, and pass upon any other business which may be presented.

The president desires to render an account of his stewardship. The committee on selection of a site, appointed at the last annual meeting, from the floor, consisting of A. B. Carrington, Mrs. C. G. Holland, Mr. L. R. Fair, Drs. R. W. Garnett and I. C. Harrison. After mature deliberation selected the site on New Design road, now occupied. The site is most admirably located, with a commanding view, proper exposure, high altitude, and a beautiful grove, giving protection from the bitter north wind. Because of its nearness to the city it has been possible to obtain electric lights and water from the city plant, and direct telephone service. The committee is due the thanks of the league for the selection of this site.

Immediately upon the acquisition of the site, temporary quarters were erected and patients moved there. The \$5,000 grant appropriated by the city council to defray the cost of moving the sanitarium, approximately \$3,000 were spent in conducting water and lights to the property, leaving a balance of \$1911 to defray part of the cost of erecting temporary quarters.

By direction of the board the president was instructed to select a building committee, to have prepared plans for the new building. This committee consisted of Mr. Frank Talbott, chairman, Dr. R. B. James, and Mr. W. E. Gardner. Plans were made by Messrs. Heard and Chesterton, which were submitted at a meeting of the board held on August 2nd, at which meeting they were duly approved and accepted. On September 6th, bids were opened, there being eight bidders, the lowest bid for the building, exclusive of plumbing, heating, electric fixtures, mantles, screens and the septic tank, was made by J. C. Dodd, whose bid was \$18,250. His bid was duly accepted, and as the building progressed it was found necessary to add to the building extras at a cost of approximately \$1,000.

The heating and plumbing cost approximately \$6,000. Electric fixtures \$250, screens \$1,300, septic tank \$435. This runs the total cost of the building, including the architect's fees up to about \$28,500. I regret that actual figures cannot be given, but many of the bills have not been fully passed upon by the building committee. They will, however, vary little from the above.

The building committee has been most painstaking and efficient and are due the sincere thanks of the league. The building has been practically furnished by the various charitable, benevolent and religious organizations of the city, as per appendix A herewith.

The building is now ready for occupancy, and it is the intention of the superintendent to move in same on Monday.

The thanks of the association are extended to the C. P. Telephone company for running their wires to Hilltop sanitarium without charge.

Out of the funds subscribed the popular subscription last April \$2,000 with interest was applied to the 1922 maintenance fund \$400 paid as between the purchase and was a price of the Williams etc also a few unpaid bills were settled.

There is now in bank to the credit of the association funds sufficient to pay all bills for building and maintenance to May 1st, lacking approximately \$1,000.

Of the \$45,000 subscribed, there remains uncollected \$41,425, part of which is a cash gift.

From April 1st, 1921 to April 1st, 1922, 51 patients were treated as inpatient (group including tubercular, anasthetic appendix B, herewith, there being at present 18 patients under treatment.

Too much praise cannot be given to

Y. M. C. A. Directors Met Yesterday

The regular monthly meeting of the board of directors of the Y. M. C. A. was held Thursday at 6:30 p. m. President Julian C. Jordan in the chair.

The reports for the past month were made by two chairmen of two respective committees and indicated close supervision and enlargement of the work.

The House Committee, though its chairman, made several recommendations which were approved and in all probability will be acted upon in the very near future.

This committee has served most faithfully during the past year and the board by fitting resolutions indicated appreciation of the service rendered.

The nominating committee through its chairman, H. L. Boatwright, submitted its report naming as officers for the coming year the following:

W. G. Gravelly, President; Wade H. Price, first Vice president; Dr. G. W. Johnson, second Vice president; George P. Geoghegan Jr., Recording Secretary; E. G. Farham, Treasurer.

The report was received and approved and on motion the officers for the following year were elected.

The Board by motion framed by Frank Talbott, expressed its appreciation of the good work rendered the Association by the retiring officers.

Mr. T. Callin, Jr., pledged the loyal support of the members of the Board to the new president and his associate officers.

The newly elected president will at once appoint the various committees for the promotion of the work for the coming year.

MISS GLADYS LEA TO RETURN SOON

Miss Gladys Lea, of Danville, who has been studying music in New York for some time, will shortly return to this city to give several concerts. She will go to Richmond before returning to New York, where she has also appeared in concert several times. Miss Lea will go abroad this summer with Mrs. Calve, who is now her teacher, and will spend some time on the continent.

LAW AND ORDER LEAGUE.

There will be a meeting of the Law and Order League of the Third ward in the Second Baptist church, North Ridge street, tonight at 8 o'clock. All persons interested in law enforcement are urged to be present, as matters of importance will come up.

PRAYER MEETING SERVICE.

The women's union prayer meeting will meet with Mrs. J. T. Callin, West Main, this afternoon at 3:30 o'clock.

Miss Jenny Lind Bass, left last night for Washington, to spend Easter with friends there.

Misses Virgie and Ruby Barker, left today on visit to Miss Minnie Grainger at Loris, S. C.

CHEMISTS SAY BREAD AND MILK IS BEST DIET

Research into Vitamin Content of Both Foods Shows Grandmother Was Wise in Choosing Them.

Old timers tell of the milk pan with its rich top layer of cream into which the bread was broken in the old days.

The Role of Yeast

Bread, raised with yeast, is our most important food. We get more material with which to keep the body warm, to repair wasted tissue, and to do our daily work from the few slices of bread and butter we eat each day, than from any other food. Indeed, we can go further and say that our bread supplies us with more nutriment and at less cost than all our other foods. We used to think this was due to the fact that bread and butter is a pure food, wholly free from waste, a rich source of carbohydrates and protein and butterfat.

Now we know that our daily bread has another vitally valuable food essential, the Vitamin "B," which is so necessary to healthful life.

The Ideal Loaf

Our business has grown because the housewife has found our loaf to be nearer the Home Baked loaf in texture, size and shape than anything on the market and that it is baked in a shop as sanitary as the ideal kitchen well could be.

BREAD IS OUR CHEAPEST FOOD

Real Value Based on What It Gives, Not on What It Costs.

You only get what you pay for and it pays to buy the best. Gilmer's Bread is made from the finest materials.

GILMER'S BAKERY

Health in Every Bite

CALOMEL PURIFIED OF OBJECTIONABLE EFFECTS, AT LAST

Success Crowns Efforts of Pharmaceutical Chemists to Rid Popular Medicine of its Nauseating and Dangerous Qualities—Calotabs the New Name.

A triumph of modern pharmacy that is destined to bless the whole world, from the King on his throne to the humblest laboring man,—that is the opinion of druggists who have been watching the sale of the new calomel tablet that is free from the objectionable effects of the old-style calomel.

An occasional purifying of the system and thorough cleansing of the liver are absolutely essential to the maintenance of health, and calomel is the only drug that gives permanent results. Now that the unpleasant effects are entirely removed, the popularity of the new calomel, Calotabs, will be vastly increased. One tablet on the tongue at bedtime, with a swallow of water, that's all—no taste or unpleasantness of any kind. A good night's sleep and you wake next morning feeling fine, with a clean liver and a hearty appetite. Eat what you please—no danger.

Be wary of imitations! Genuine Calotabs are sold only in "chequer-board" (black and white) packages bearing the copyrighted trademark "Calotabs." The large, family size sells for thirty-five cents; vest-pocket size, ten cents. All dealers are authorized to refund the price if you are not delighted with Calotabs.—adv.

The building is now ready for occupancy, and it is the intention of the superintendent to move in same on Monday.

The thanks of the association are extended to the C. P. Telephone company for running their wires to Hilltop sanitarium without charge.

Out of the funds subscribed the popular subscription last April \$2,000 with interest was applied to the 1922 maintenance fund \$400 paid as between the purchase and was a price of the Williams etc also a few unpaid bills were settled.

There is now in bank to the credit of the association funds sufficient to pay all bills for building and maintenance to May 1st, lacking approximately \$1,000.

Of the \$45,000 subscribed, there remains uncollected \$41,425, part of which is a cash gift.

From April 1st, 1921 to April 1st, 1922, 51 patients were treated as inpatient (group including tubercular, anasthetic appendix B, herewith, there being at present 18 patients under treatment.

Too much praise cannot be given to

FORD TOURING CAR STOLEN LAST NIGHT

Cloud Gaebel, of Schofield, reported to the police department last night that his Ford touring car had been stolen from his parking place on Market street. Gaebel said that he left the machine there about 8 o'clock and when he returned at nine o'clock it was gone. A description was given of the car, but the machine had not been recovered at a late hour last night.

Million to Owners of Liberty Bonds

Approximately \$135,000,000 in interest will be payable by the government on Fourth Liberty Loan 4 1/4 per cent bonds on Saturday, of which about \$40,000,000 will go to coupon holders at the Federal Reserve bank in New York.

WEDDING LICENSES ISSUED.

Wedding licenses have been issued by the clerk of the court to the following:

Robert Pudd, Caswell county, and Myrtle Sue Broach, Person county.

Zion B. Cooper and Elsie R. Cates, Winston-Salem.

A driveway is much needed, plans have been prepared by the city engineer, Mr. Linville, who stated that he can have this work done and a hard surface road constructed at a cost of not more than \$1500, provided the work can be done while the contractors working on our city streets. The above cost it is understood, would be yielding no profit to the contractor.

Your president recommends that provision be made to acquire this much needed improvement.

I cannot close this report without paying tribute to the service rendered me by the other members of the board, especially Mr. John E. Harvie, chairman of the finance committee who has given unstintingly of his time and thought, also of Dr. C. E. Harper, chairman of the admission committee, and Mr. J. W. Yarbrough, chairman of the purchase committee.

Respectfully submitted,

JAS. M. SEEGAR, Pres.

—Mrs. J. F. Davis has returned home after an extended visit to friends and relatives in Jacksonville, Fla.

CALOMEL PURIFIED OF OBJECTIONABLE EFFECTS, AT LAST

Success Crowns Efforts of Pharmaceutical Chemists to Rid Popular Medicine of its Nauseating and Dangerous Qualities—Calotabs the New Name.

A SPELLING LESSON
DUBLIN, April 13.—Anyone who can say "Doyle" through his nose and add "ultra" through the ordinary channel of articulation can pronounce "Dall Eireann"—the Parliament of Ireland—as it should be and seldom is pronounced.

Civil Service Is Hardingized To Help Faithful

By GEORGE H. MANNING
WASHINGTON, April 13.—If the Harding administration pursues its alleged purpose of "Hardingizing" the executive departments along the lines adopted recently at the bureau of engraving and printing, there will be a weakening of the foundation of their rights liberty, regulated by law, and substitution of the golden opportunity for the agitator, the communist and the bolshevik. Representative H. W. Burton, of their by-law asserted during a speech in the House yesterday.

He would not raise his voice in protest against the president's action, he said, had the thirty employees been removed for misconduct. But he presented letters of explanation had stated that no such charges exist.

The president was too busy to give the bureau investigation or deliberation. Mr. Moore said, the "deliberation" spoken of by the president was apparently done by the heads of the justice and treasury departments. The president had best drop these patronage pilots from his administration ship, he would keep it off the rock, Mr. Moore said.

"All the twenty-six men and four men displaced had rendered valuable service to the government," said Mr. Moore. "Several of them by inventions and improved processes for which, of course, they were paid nothing, had saved the government large sums of money, and some of them had declined private employment, and yet salaries than the government was paying because of their devotion to the work in which they were engaged. They were all in the classified civil service; appointed without regard to party affiliations, and most of them appointed before the advent of the Wilson administration.

"There was a group of high-class employees, each one having a record of fidelity and efficiency, and yet were dismissed, warning, they were dismissed while they were at their homes at night, the word being brought by a messenger. Next day when they went to their desks to claim their personal belongings they were led into the building by two secret service men.

"Several of them who were close to the retirement age, having served faithfully almost 30 years, of course, have no hope of coming within the scope of the retirement law. I understand, furthermore, that dismissal means ineligibility for appointment to other civil service positions.

On April 3rd I offered here in the House a resolution asking an investigation by a special House committee, reciting that after the sentence had pronounced and the execution had taken place, an investigation was started by the attorney general, presumably to search for evidence to justify what had been done. I was aware when I presented the resolution that the committee on rules, to which it was referred, would probably observe its habit of not considering any resolution introduced by members of the minority. That very autocratic committee has proved true to form.

"This ominous incident, while it immediately affects only thirty citizens, adds to the confusion and uncertainty of the times by threatening to place the business of the government where it once was, in the hands of reckless and unscrupulous spoilsmen.

"All who study sufficiently to take a long view remember how the spoils system corrupted the government of England during the 18th century."

"It is a circumstance of marked significance in the estimation of those who dread a return to the spoils system that only a few days before the president's order was issued his attorney general proclaimed himself hostile to the present system. His utterance was not rebuked by the president. There have been presidents who would not only have rebuked him, but dismissed him for the good of the service. Theodore Roosevelt, who would now lead the almost certainly be in the presidency, who abhorred the spoils system, would surely not have countenanced the doctrine which the attorney general has proclaimed, nor, in my opinion, is it conceivable that he would have signed the order which the attorney general doubtless prepared."

After speaking of his long acquaintance with Director Wilmet and Mr. Ashworth, two of the leading officials who were dismissed, and speaking in the highest terms of their character, Mr. Moore suggested that before appointing Director Hill and Mr. McCauley to take their places, the orders of the supreme court of the District of Columbia should have been consulted.

"If the charges made in divorce suits pending in that court against Hill and McCauley are true, and if they will receive the condemnation of the court, as they should receive the condemnation of all decent citizens," added Mr. Moore.

"Corpse" Starts Fight With the Undertaker
KENOSHA, Wis., April 13.—A "corpse" came to life here today, facing the undertaker, when Anton Gloss, 45 years old, revived in time to put an end to plans for his funeral and to demonstrate that he was "dead drunk," not dead.

The man had been in a stupor for two days. His aunt, after trying in vain to revive him, gave him up for dead. She summoned the undertaker. The latter brought the corner with him. Then the doctor arrived.

At this juncture Gloss opened his eyes slowly and began fighting everyone in sight. Gloss admitted that moonshine had caused the deathlike sleep.

Election Returns Elate Democrats

Party Leaders Predicting Landslides in November —Wets See Change of Sentiment.

WASHINGTON, April 13.—Democrats and anti-prohibitionists were encouraged by yesterday's election returns. Dry Democrats would not admit that prohibition had anything to do with the heavy cut in the Republican majority in the thirty-seventh New York congressional district, but others here who kept up with the campaign applaud Judge Frank Irvine's bold stand against dry and other laws that interfere with personal liberties.

Democratic leaders in Congress believe that the returns in the New York election forecast a landslide for their candidates in November. Representative Tinkham, Republican, Massachusetts, said: "It would seem to me there was much significance in what occurred in the thirty-seventh New York district. I understand that the paramount issue was the Volstead act—perhaps even prohibition itself. No student of human nature or of American character and American politics could conceive of any result but of a great and far-reaching revolution in the domination by fanatical minorities such as the Anti-Saloon League. The recent disclosures here in Washington of its attempt to control the federal judiciary and the administration of justice in the United States and its wholesale violations of the federal corrupt practices act, for which it will be criminally prosecuted, makes an end to its offensive control of American government."

Representative Byrnes, Democrat, Tennessee, said: "This is just an indication of what is going to happen in the political revolution that is sweeping the country. It is due to failure of the Republican party to carry out its promises. I doubt if the wet issue had much to do with it. The real trouble is that those who voted the Republican ticket are dissatisfied or disappointed."

SEARCH FOR MYSTERIOUS CRAFT BRINGS ADVENTURE BUT QUARY ALWAYS ESCAPES

MIAMI, Fla., April 13.—Twice in as many weeks, Captain R. S. Miller, commander of the coast guard cutter Vidette, and his little crew have gone out upon the high seas in search of a mysterious craft, and twice has the captain and his ocean broncho ridden into unexpected adventure proving good catches, but allowing the quarry of the quest to remain uncaught.

"Tonight Captain Miller and the Vidette were cruising off Cape Florida Light when a craft believed to be the desired object was sighted. It was watched for an hour, the small military aircraft cleared for action and the searchlight trained on the craft.

The boat was overhauled after a chase and 75 cases of whisky seized and five men, one a negro, arrested. In a statement to Captain Miller, one of the white men said that he and his party were fishing off Ragged Key when a "sloop" bore down upon him with the liquor aboard.

"Take this to Miami and leave it there. We don't want it. Give it to some hospital," he said the captain of the sloop told him.

Two weeks ago Captain Miller

started out in search of the craft he has sought for weeks. Along about dusk he sighted a boat coming toward him without lights. He spotted the boat with his searchlight and found three white men and 10 Chinese aboard her.

"Bang it, it seems though I'll never find that man I'm looking for," the Vidette's captain remarked as he jotted down the number of his latest capture.

"Held up at sea and given 75 cases of real stuff," he continued. "I suppose the other guy was stopped and given the Chinese to bring to Miami for laundry clerks."

U. S. Movies Are Strong In Brazil

RIO DE JANEIRO, April 13.—The motion picture business is generally regarded by business here as the business in which the United States has the least cause to fear European competition in Brazil.

It is feared that several products of North American industry are doomed to disappear from the Brazilian market, being driven out by European and Japanese competition, but the North American movie film is expected to stay.

However, Germany, France and Italy have absorbed a large part of the increased cinematograph business in Brazil, but the United States is now probably exporting more films to Brazil than it did during the war. This is something unusual in present international trade.

Despite the favorable conditions, however, Brazil has not been a good market for the North American film companies that tried to do business here. Some of the film exporters have lost considerable money. They failed to understand Brazilian psychology.

On the other hand, a number of film exporting companies have established agencies in many Brazilian towns, with headquarters usually in Rio de Janeiro, and have made large strides forward. These companies employed experts who have calculated the business value of a famous North American production on the Brazilian market. They have found that Bill Hart, Buck Jones, Tom Mix, and others are valuable drawing cards, and have discovered that Brazilians appreciate the smiles of Mary Pickford, the awkward steps of Charlie Chaplin, and the antics of Douglas Fairbanks.

The latest available statistics on the movie industry here are for the year 1920. In that year Brazil was the fourth largest market for American films. There are only a few more than 1,200 motion picture houses in the whole country. This number of movie houses is of course very small in relation to the size of the country, but it shows an increase of 50 per cent over the close of the war.

There have been founded in Rio within the last three years more than half a dozen magazines dealing exclusively with motion picture interest.

The first real moving picture house was built 15 years ago. The film all came from Europe. There were no film agents.

Despite obsolete equipment, China is probably, after the United States, the foremost agricultural nation. Exporters of the United States furnish the world with 55 per cent of its copper.

Engineers To Extend System Of Co-Operative Banks

CLEVELAND, April 13.—(United Press).—A nation-wide co-operative banking system, for railroad employees, is the aim of the Brotherhood of Locomotive Engineers.

These banks are to be located in scattered sections throughout the United States and are to be matter of largely after the Engineer's co-operative bank here, said to be the richest of its kind in the world, according to Warren S. Stone, chief of the engineers' brotherhood, and head of the bank. Resources of the local bank are more than \$14,000,000 and deposits exceed \$11,000,000, the monthly report shows.

Three co-operative banks already are in operation, at Tucson, Ariz., Hampton, Ind., and Philadelphia. Each is thriving, Stone declared.

The next step will be installation of a similar bank in the Pittsburgh district. Workers of the district are circulating subscription lists, and it is expected the bank will open shortly.

Cities in which these banks will be located, Stone said, include Minneapolis, Seattle, Spokane and San Bernardino, Calif. Workers in other cities are expected to follow the lead at a later date, it was announced.

The idea of the co-operative banking system, as adopted by the Brotherhood, briefly, is this:

The profits, or savings, of the bank are returned to depositors in the form of increased interest rates. In this way, every depositor is a shareholder in the enterprise.

For instance, some time ago the bank here declared dividends and the money was distributed to depositors, at a six per cent rate of interest. This is the first time in the history of the world, the officials stated, that depositors have shared in a bank's dividend.

Depositors may buy stock in the bank. That is voluntary. Stockholders, however, must be depositors in the bank.

The co-operative banks loan money to institute a "personal collateral loan" system, whereby a depositor will be loaned money, not on the usual collateral, but on his record as a worker, and as a citizen.

SURPRISE PARTY

On Tuesday evening, a delightful surprise party was given at the home of Mrs. J. W. Burton, Whitwell, Va., by Misses Dewey Bradley and Marie Dovel, in honor of Miss Marguerite Whitney, whose marriage is to take place in the near future.

Those present were Misses Margaria Morrison, Birdie Harper, Margaret Graves, Sallie Kato, Pollock, Annie Mae Mitchell, Edna Burton, Maud Kelly, Verlie Story, Maud Burton, Messrs. Swann Hudson, Roy and Ben Hervey, Fred Robertson, William Pollock, Henry Adams, Kenneth Greenfield, James Mitchell, Ralph Hudson Dr. Fritchett, Overton Harper, Roy Vaughn Mitchell, Willie Burton and Mr. and Mrs. E. W. Payne. The evening was spent playing games. At a late hour dainty refreshments were served and the guests departed to their respective homes.

There will be Easter services at Swansboro Methodist church Sunday morning, at 11 o'clock, by the pastor, Rev. S. B. Williams.

Moonshine No More Poisonous Than "Good" Whisky, Says Expert

ST. PAUL, April 13.—Distinguished physicians from all parts of the United States and Canada attending the sixth annual clinical session of the American Congress on Internal Medicine received a jolt when one of the lecturers addressing them came to the scientific defense of moonshine.

Moonshine is no more poisonous than "red eye" or "red liker" or whatever you like to remember it by, is per se, according to the experiments of Dr. E. L. Brown of the department of pharmacology of the Medical School of the University of Minnesota.

Dr. Brown has given moonshine to frogs and watched them blink. As a man of science often appealed to by the courts or coroners, he has examined moonshine in the stomachs of persons who have blinked their last blink. He has put moonshine into bottles and lit a fire under it and watched it blink. And he told the eminent doctors he has failed to find any poison which can be laid to the method of manufacture except alcohol, which is itself a poison.

If he has found poisons, it is true, but they have always been put in with malicious intent, and, of course, if some one treats you to a drink and drops in a little strychnine in remembrance of some little difference of opinion between you, such poisoning can hardly be charged against the makers of home-made whisky.

IF THIS PLAY COMES UP
If with first and second or first, second and third occupied, with less than two out, any attempt to hunt in an effort to advance the base runners which results in a fair fly ball shall not be regarded as an infield fly.

YALE IS WINNER

RICHMOND, April 13.—The Yale tennis team defeated the country club of Virginia players here today in six of seven matches. Two doubles were played.

DIES AFTER BEING ASLEEP 3 YEARS

FORT SMITH, Ark., April 13.—Jim Eslinger, who has been asleep continuously for three years, died at the county hospital today.

Eslinger, for eight years a county charge, would have been 63 years old June 7.
Physicians say he was not suffering from sleeping sickness but from mental paralysis. He apparently was insensible to pain, was immobile and his eyes were closed.
In March of 1921 Eslinger for a few seconds showed signs of awakening but he again relapsed into the comatose state.
On July 1, 1921, he opened his eyes, said "I ain't where I was" and soon fell back into a coma.
He was fed with a spoon.

St. Louis 8; Pittsburgh 4.

ST. LOUIS, April 13.—St. Louis hit Glazner and Morrison for 12 safeties today, including three doubles and homers by Smith and Ainsmith, and defeated Pittsburgh, 8 to 4. Smith's circuit rap came with two men on bases in the second inning.

Score: R. H. E.
Pittsburgh . . . 101 001 100—4 8 2
St. Louis . . . 230 100 115—8 12 6
Glazner, Morrison and Gooch; Deak Bailey, Barfoot and Ainsmith.

Chicago 5; Cincinnati 1.

CINCINNATI, April 13.—Luque was hit hard, and Chicago had little difficulty in defeating Cincinnati today, 5 to 1. Hollocher's fielding again was a feature. During the first inning, fourteen of Chicago's reserve players were ordered from the bench for protesting a decision by Umpires Klem and Sentelle. This left the visitors with but 11 men in the field.

Score: R. H. E.
Chicago . . . 001 001 030—5 14 2
Cincinnati . . . 000 000 001—1 6 2
Aldridge and Hartnet; Luque, Marlie and Wingo.

Phillies 4; Boston 2.

PHILADELPHIA, April 13.—Parkinson's triple in the eighth inning enabled Philadelphia today to take its second victory from Boston, 4 to 2. After the first inning when the Braves got two hits mixed with a pass and Fletcher's error for their two runs, Rhee held the visitors.

Score: R. H. E.
Boston . . . 200 000 000—2 7 5
Philadelphia . . . 101 000 024—4 8 1
McQuillan, Fillingim and Gowdy, Run and Henline.

Giants 4; Brooklyn 3.

NEW YORK, April 13.—New York reversed yesterday's score, defeating Brooklyn 4 to 3. Douglas kept the Brooklyn hits well scattered. The Giants won the game in the second inning largely on Vance's wildness. Meusel hit his second home run of the season in this inning, but no one was out. He also hit two singles.

American League

St. Louis 4; Chicago 2.

CHICAGO, April 13.—St. Louis made it two straight from Chicago today by bunching hits and winning 4 to 2. Danforth was wild but pitched effectively in the pinches.

Score: R. H. E.
St. Louis . . . 000 010 120—4 11 1
Chicago . . . 100 000 101—2 7 3
Danforth and Severeid; Hodge, Russell and Schalk.

New York 5; Washington 2.

WASHINGTON, April 13.—New York turned the tables on Washington today, taking the second game by a score of 5 to 2. Mays pitched effectively throughout and the visitors bunched hits off both Zachary and Geason.

Score: R. H. E.
New York . . . 100 000 205—5 13 2
Washington . . . 010 000 100—2 6 0
Mays and Schang; Zachary, Geason and Gharriety.

Boston 6; Athletics 2.

BOSTON, April 13.—Boston evened the series with Philadelphia, winning today 6 to 2. Carr allowed five hits. Errors figured in both Philadelphia runs. The Red Sox hitting was timely. Captain Pratt leading with two doubles and two singles. Fred McGaffey of Lynn, a recruit infielder, was given his unconditional release by the Red Sox.

Score: R. H. E.
Philadelphia . . . 100 010 000—2 5 2
Boston . . . 102 102 004—6 12 4
B. Harris, Yarrison, Sullivan and Perkins; Carr and Ruel.

Cleveland 8; Detroit 3.

CLEVELAND, April 13.—Cleveland made it two straight from Detroit winning 8 to 3. Ehmske had two bad innings. Uhl started to pitch for Cleveland but was forced to retire at the end of the second inning as a result of being hit on his throwing arm with a ball thrown by Ehmske in an attempt to catch Uhl off second. Shoestrung catches that ended in controversy by Flagstad, Speaker and Jameson were features.

Score: R. H. E.
Detroit . . . 100 000 200—3 11 1
Cleveland . . . 050 000 304—8 11 1
Ehmske, Pillette and Oodall, Bassler; Uhl, Coveleskie and Nunamaker.

CRISIS REACHED IN ATHLETICS SAYS ALDERMAN

Whether They Are to Be Commercialized or Remain as of Old Is to Be Determined

CHARLOTTEVILLE, April 13.—Intercollegiate athletics are approaching a crisis which will determine whether they shall be regarded as commercialized, spectacular, gladiatorial combats or whether they shall be organized and administered as an integral part of a student's collegiate education. President Edwin A. Alderman, of the University of Virginia, declared today in the Founders' Day address at the university.

Any step backward, looking to the mere entertainment of huge crowds instead of the development of athletics as a pastime between gentlemen and a valuable training for them would be deplorable, Dr. Alderman added.

There is at present, he continued, an irrepressible conflict brewing between two schools of thought, one which would demand vast expense and an exorbitant proportion of the student's time and energy for athletics, and the other which would organize collegiate athletics as an integral part only of the curriculum.

FOUR MANAGERS ARE STILL ACTIVE

Twelve Major League Leaders Direct Team From the Bench

Is the playing manager slowly becoming extinct in the major leagues? Out of 16 big league leaders only four are now rated in the playing class.

The American League boasts three in Speaker, Cobb and Milan, while the National has one in Bill Killifer. It is rather interesting fact that the three American League playing managers are outfielders. Bill Killifer is a catcher and a mighty good one.

It would seem that catchers develop into managers more readily than players at other positions. Ten of the managers in the majors today gained fame back of the bat. In the National League, Pat Moran, Bill Killifer, Branch Ricker, George Gibson, Fred Mitchell and Wilbur Robinson starred in the minors back of the bat.

In the American League, Connie Mack and Lee Fohl learned the game as catchers.

PREDICTIONS OF HIGHER LIVING NOT FULFILLED

NEW YORK, April 13.—Predictions that the cost of living would rise again during the winter months failed to materialize, said a report of the National Industrial Conference board, an employer's research bureau, made public today.

The report, based on a nation-wide investigation in nearly all cities of more than 50,000 population said there had been a drop of nine per cent in average living costs between March 1, 1921, and March 1, 1922. The decrease for the six weeks ending March 15 was 1.9 per cent, said the report while the decrease from the peak reached in July 1920, was 24 per cent.

FUNERAL OF W. S. DANCE.

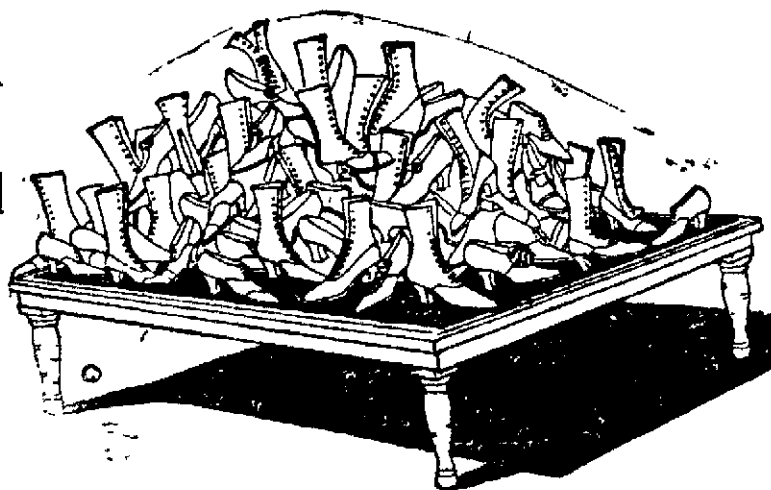

RICHMOND, April 13.—Funeral services for W. S. Dance, 48 years old, a widely-known Confederate veteran, were conducted this afternoon at the family burying ground in the Edward county. Besides a widow, Mr. Dance is survived by two daughters, Misses Nannie and Bessie Dance; two sons, Charles R. Dance, of Chicago, formerly of Danville, and S. Fletcher Dance, of Prince Edward county, and several grandchildren. He was a member of the Methodist church of Meherrin and an active worker in that church for a number of years.

India and Java black teas are supplanting Japan's on the American market.

SHOES

Our Shoe Buyer has just returned from the Eastern markets. His buys for special Easter selling has just arrived. "MUSKETEERS" A GORGEOUS AND IMPRESSIVE FILM

"Doug" Displays a Greater Ability and Far More Pep and Action Than Ever Before

If anybody is in doubt about the costume play as an excellent form of motion picture entertainment, he should see Douglas Fairbanks' picture version of Alexander Dumas, classic story, "The Three Musketeers," which started a three-day run at the Broadway yesterday.

Featuring the costumes of the early Seventeenth Century, this film stands as one of the most impressive and gorgeous photoplays of motion picture history. It is thrilling, romantic, crammed full of red-blooded adventure and reveals Douglas Fairbanks in a type of work which is in some respects typical of past performances, but on the whole differs from any other interpretation he has ever given us.

In the role of D'Artagnan, the dashing swordsman who intercepted one of the foulest intrigues ever attempted, Cardinal Richelieu, of France, "Doug" is called upon for a greater display of histrionic ability than in anything he has done since leaving the speaking stage for pictures.

He has been given an ideal adaptation of the story by Edward Knoblock, noted dramatist, and Fred Niblo as director has developed every situation in a way that enabled Fairbanks to make the most of it.

From the standpoint of photography, "The Three Musketeers" is one of the most beautiful pictures ever made. Arthur Edson, the cameraman, has done much to contribute to the success of the photoplay.

Those who have read "The Three Musketeers" will have no regrets to express when they view it on the silver sheet, for Fairbanks has reproduced the story with a faithfulness and fidelity that is particularly gratifying.

It has been a long time since so much care has been exercised in the choosing of characters for a picture as was evidenced in the selection of the cast for this play. The work of all players is most commendable, and Fairbanks deserves much credit for the foresight he displayed in picking actors and actresses with stellar ability for these roles.

For King Louis XIII we have Adolph Menjou, for the Queen, Mary MacLaren, for her companion and confidant we have Marguerite De La Motte as Constance, Cardinal Richelieu is admirably portrayed by Nigel de Brulier; Milady is Barbara La Marr. For the three musketeers we have George Siegmann as Porthos, Eugene Plette as Aramis, Leon Barry as Athos, the villainous Rochefort is portrayed by Boyd Irwin. As the Duke of Buckingham, Thomas Holding gives an excellent interpretation. Every other part is capably filled and convincingly portrayed.

SUFFERS SERIOUS BREAK DOWN

Two years ago I spent 3 months in hospital under stoma and bowel specialists for mucus colitis, auto intoxication, etc., which caused awful bloating and colic attacks. My friends gave me up. I returned home and on the advice of Mrs. Wright, a friend, tried Mayr's Wonderful Remedy with wonderful results. Am now in best of health. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments including appendicitis. One dose will convince or money refunded. J. C. McFall's Drug Store, Trent Drug Co. and druggists everywhere—adv.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots.

How to Remove Easily

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it removes freckles, while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the hemely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case. Be sure to ask the druggist for the double strength. Othine, as the strength is sold under guarantee of money back if it fails to remove freckles.—adv.

Getting Rid of a Stubborn Cough Is Child's Play Now

Make the Medicine Yourself at Home

It's Cheap—but You Can't Beat It

If you want to take care of that bad, hang on cough and do it in a few hours, better get one ounce of Parment (double strength) and mix a half pint at home.

You can do this in two minutes by adding a little sugar and enough water to fill a half pint bottle.

You'll travel the world over before you get a medicine that will act so surely and quickly on the mucous membrane of the nose and throat. It hark the inflammation, the tickling sensation stops with the first spoonful, the heavy breathing goes and clear membrane, free from irritation and mucous follows.

For Catarrhal conditions such as mucus droppings, clogged nostrils and water eyes, it won't disappoint—ask for Parment (double strength). Speak plainly so that the druggist will know exactly what you want.—adv.

BANISH NERVOUSNESS

Wendell's Pills, Ambition Brand, For Run-down, Tired Out People

If you feel tired out, out of sorts, despondent mentally or physically depressed, get a 60 cent box of Wendell's Pills, Ambition Brand, at Frank McFall's drug store, McFall's Drug & Seed store, today and take the first step toward feeling better right away.

If you work too hard, smoke too much, or are nervous, Wendell's Pills, Ambition Brand, will make you feel better in three days or money back from Frank McFall's drug store, McFall's Drug & Seed store on the first box purchased.

As a treatment for affections of the nervous system, constipation, loss of appetite, sleeplessness, or Nervous Indigestion, get a box of Wendell's Pills, Ambition Brand, today on the money back plan.—adv.

SMILING BILL

Congressmen may rant about Bill Taft staying up till 10:30 at night, but the chief justice of the supreme court just laughs at them. This was snapped when he was made a life member of the Congressional Country Club.

BOTH SIDES ARE CLAIMING FIGHT

WASHINGTON, April 13.—House factions upholding and opposing the 1923 naval bill, with its provisions for an enlisted force of 65,000, were lined up tonight for the first showdown, probably on Saturday, with both sides claiming victory.

There was no session today because of the death of Representative Brinson, of North Carolina, but meanwhile the round-up of members for and against the bill continued.

Satisfied the House would stand by it as framed, Chairman Kelly, who is handling the bill on its tempestuous voyage, announced that he would not agree to the proposal, put forward in the round-up of members until after the Easter holidays the vote on an amendment increasing the strength to 80,000.

Mr. Kelley, and Chairman Madden, of the Appropriations committee, declared the measure would be passed by the House substantially as reported.

"TAKE IT FROM ME" TAKES

Elaborate Dancing and Singing Spectacle and Comedy Pleases Audience

The dancing spectacle and comedy, entitled "Take It From Me," was presented at the Majestic last night to a large audience which manifested its appreciation of the new show, particularly of the dancing diversions. While it was not the entire New York company which originally presented this whirlwind show, the new members of the cast were as clever and as a whole the performance was well up to the standard of road shows on tour.

The show is produced by Joseph M. Gates, the book and lyrics are by Will E. Johnston and the music by Will Anderson, while the elaborate spectacle was staged by Fred A. Bishop and Joe C. Smith.

The music is tuneful and lively throughout, but the voices generally are not of opera quality. In fact, while there were several good voices in the cast, and some of the comedy songs were cleverly rendered, it is as a colorful and even sumptuous spectacle and as an enjoyable comedy with some unusually clever dancing that nothing remotely suggestive of a drag being apparent.

The three Gardiners—Edgar in the role of "Tom Egert," as "Grace Gordon" and Helen as "Gwendolyn Forsythe"—are a clever trio, but John E. Hennings as Vernon Van Dyke, Alice Hills as Ella Abbott and Marjorie Sweet as "Queenie Labelle" are three members of the company who contribute most of the dancing, much of the real singing and the bulk of the comedy. Miss Arline Gardiner as "Grace Gordon" is versatile and clever, pliant and symmetrical, her dancing is graceful and at times brilliant and her acting natural and convincing. Mr. Meekins as "Dick Rolio" of the Tom, Dick and Van trio, also contributed notably to the comedy.

Miss Hills as Ella Abbott, a somewhat grotesque comedy role, is a scream throughout and is one of those who give the show its punch. Her make-up is irresistibly funny and her comedy is drollery itself. Whenever she was on, she had the audience laughing.

Miss Sweet as "Queenie" sang well and danced brilliantly and in her vampire song and dance act with Mr. Hennings she gave a clever if rather daring interpretation of the Kipling camp of the verses. Her costuming was gorgeous and her comedy acts of a high class.

The Egyptian dance of Helen Gardiner and girls and many of the spotlight dances and poses were interesting and worthy of note. The dance of the Gardiner trio was an artistic piece of Terschorean exhibition that aroused enthusiasm, and the Tanglefoot Trot by Mr. Hennings was another dance specialty which was of a high class.

The gorgeous and beautiful coloring of the costumes of chorus and principals, especially under the changing spotlight, added an appeal to the eye, while the gown and the special appeal to femininity in the audience.

Altogether it is a show with plenty of dancing and pep, and these are what Danville audiences like.

HOW TO BROOK TROUT STREAM

How to stock a trout stream.

The Pennsylvania Fish and Game Commission has just issued the following interesting facts on that subject.

First—Brook trout will not live in streams that rise above 68 degrees temperature in summer.

Second—Banks of streams should bear trees or tall shrubs to provide necessary shade and coolness. In open spaces quick-growing willows or black alder should be planted.

Third—Remember that in a manufacturing state or large towns and cities, sewage, and other refuse poured into many of our streams, it is useless to put trout in such waters.

Fourth—The best places for planting are the rivulets and spring feeders. The trout will work their way into the larger streams as they grow.

GRAND JURY HOT TO INDICT REILLY

Afterwards Appealed to Attorney General for Legal Ruling as to Dismissal

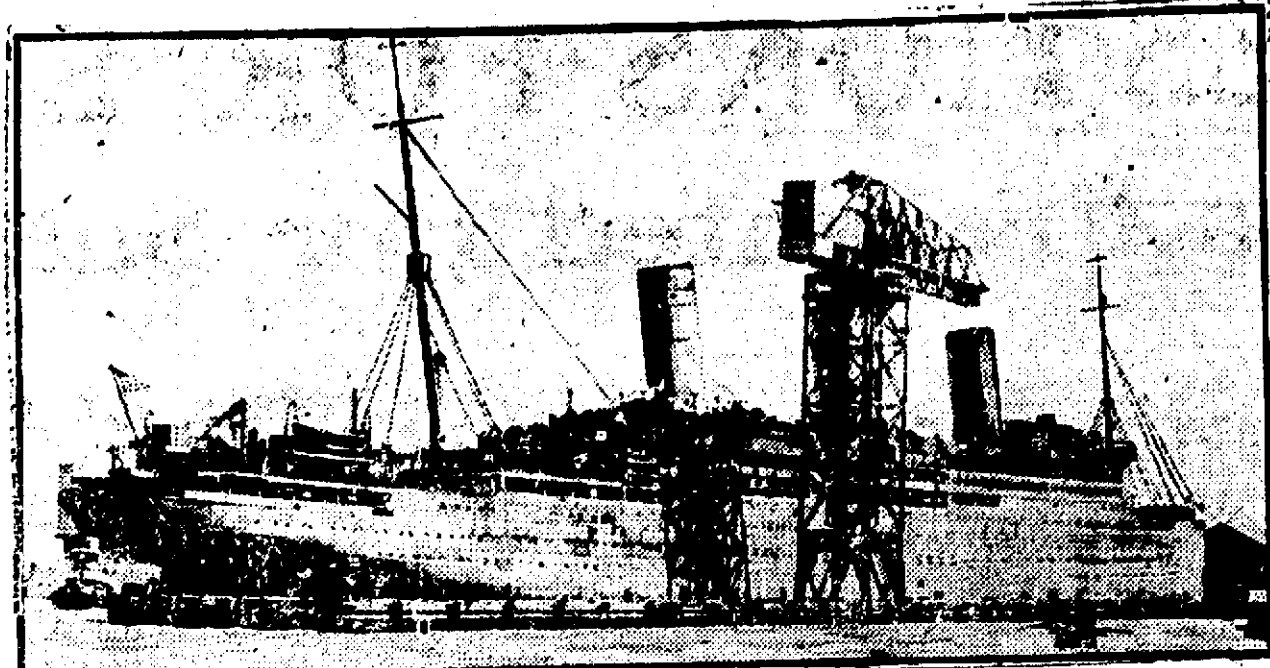

SAN JUAN, April 13.—The grand jury which recently made a presentment against Governor Reilly and other Porto Rican officials was dismissed today by Judge Foote, of the San Juan district court. The grand jury afterwards met in quarters outside the courthouse and appealed to the attorney general for a legal ruling relative to its dismissal, expressing belief that it was not in accordance with the law.

The grand jury, it is stated, had reported to the judge that it had business still pending before it.

When the grand jury handed in its presentment last week the court refused to receive it, and when the jury insisted upon delivering the report Judge Foote again declined to accept it as a public document, but put it aside in a sealed envelope.

Forests of Florida contain 175 different kinds of wood.

Leviathan Arrives At Newport News

This photograph was taken just after the Leviathan had been warped into dock at Newport News to be condition for passenger service. Although idle for almost three years at Hoboken the engines of the biggest boat afloat were in first-class condition. The vessel may be renamed "Warren G. Harding" when fit for service.

THE HOPE OF THE WORLD

The war of 1914 laid half the nations of the world in the dust. Their homes, their industries, their peace must be restored by the rising generation. In this is the hope of the world.

To make motherhood easier, to secure for every baby a clean bill of health and a fair start in life—that is the problem.

Lidia E. Pinkham's Vegetable Compound is an excellent medicine for mothers and for future mothers. For fifty years this medicine has been used successfully in all non-surgical cases of women's disease.—adv.

KIDNEY---BLADDER Troubles HAVE TO GO

Charged up kidney deposits are dissolved and the toxins (poisons) completely driven out. Your "very life" says Dr. Carey "depends upon the perfect functioning of your kidneys." Don't neglect them. When your back aches, have darting pains, dizziness, headache, bad stomach and nausea, annoying bladder troubles, cloudy urine, rheumatism, puffy eyes, specks, or any other tendency to Bright's Disease, Diabetes or Gravel, Kidney Trouble in its worst form may be stealing up on you. Never mind the failures of the past, but rely upon having at once a bottle of Dr. Carey's Marshmallow Prescription No. 777. (Liquid or Tablet form). All druggists and any reliable druggist can supply you. Kidney and Bladder troubles don't wear away, they will grow upon you slowly and steadily and with unfailing certainty. Every good druggist has been authorized to refund purchase price on each bottle to all who state they have received no benefit.—adv.

Berkley Swept By Fire; 100 Houses Are Burned Down

NORFOLK, Va., April 13.—Berkley, a suburb of Norfolk, was swept by fire this morning which destroyed more than 100 houses covering an area of one mile in length and average from two to four blocks in width. Five hundred families are estimated to have been made homeless, and the damage will run to nearly a million dollars. The blaze originated in the Tunis Lumber Mills, on the Southern branch of the Elizabeth river, late this afternoon. A woman, whose husband is a watchman at the Tunis docks, discovered the fire from a house boat in which they were.

Within forty yards of the dock where the fire started are the St. Helens Oil Company docks. Three steamers in the river were burned, catching fire from sparks. The sparks being carried a hundred yards or more. Most of the houses in the path were negro homes, and were of wooden structure. They were dry as tinder and a few sparks only were required to set them afire. At one time there were nine fires blazing in different places simultaneously.

Although the fire departments, both civilian and navy, from all the cities and towns in the vicinity of Berkley, were called into service they were helpless against the spreading flames, which soon reached Liberty street, one of the oldest business streets of the town. One block on Liberty street was completely wiped out. A negro church was destroyed. For a time it appeared that a large gas tank owned by the municipal gas plant was doomed, but the gas was burned off by means of safety valves. After four hours the fire appeared to have reached its climax, although it is still blazing stubbornly in several parts of the town.

Included among the buildings destroyed were several stores, two negro churches, two river steamers of the Buxton line, a schooner, a houseboat and a factory. Hundreds of negroes, men, women and children, are sleeping tonight in the open air upon beds, mattresses and pieces of bed clothing salvaged from their burning homes. Many of them, however, have been housed by the city in a negro school building. Preparations have been made to register all refugees throughout the night, so that the city may provide housing and food for them until they can find homes.

The fire was not brought under control until late tonight after hours of fighting.

By the time the alarm was sounded, the blaze had spread to the river and to the ships of the Buxton line that were tied up at the Tunis docks. Sparks also had fallen to dwelling houses at the extreme end of Main street just outside the St. Helena reservation. In less than half an hour after the discovery of the blaze, nine separate fires were in progress, and flying sparks were carrying the conflagration steadily northward. In another half-hour lower Craig street lay in ruins, and business houses in Liberty street were in flames. The steamers Rosebade and Buxton of the Buxton line, and the schooner, Martha Stevens, and the houseboat, Watch Hill, tied up at the Tunis docks were burned to the water's edge. In spite of valiant but futile work on the part of the navy yard and river tugs and marines from the St. Helena station.

Explosion Blows Man's Body Into Bits; Two Unhurt

CHARLESTON, S. C., April 13.—J. Hill, foreman for the Columbia Salvage Corporation was blown into bits about 11:30 o'clock this morning when an explosion of 20,000 pounds of black powder occurred in an ammunition salvage magazine near the ordnance depot, North Charleston. More than fifty box cars were damaged and wreckage wrecked. It will never be known what caused the terrible blast.

Fragments of Hill's body were collected and placed in a casket for interment. His cap was found about two hundred yards from the magazine, the walls of which were made with boxes filled with sand with a canvas roof. Hill and three laborers were seen about the magazine just before the explosion. It is said the negroes were practically unhurt.

For many miles around the explosion was felt. Glass was shattered in plants in the section. "Explosion," for some time the Salvage company has been taking black powder out of derelict or out-of-date shells, this powder being placed in metal kegs. The magazine was not connected with the magazines of the ordnance department but was a considerable distance from the nearest. Where the salvage magazine stood is a crater twenty feet deep and more than 60 feet across. Nothing remains of the metal kegs and fragments. It is believed that one or two kegs of powder were first detonated and that almost instantly all the rest of the kegs went off with terrific force. A trainee band led a short distance away among a lot of T. N. T. shells and among those who appreciated the peril there was consternation. At the imminent risk of their lives, Chief Thompson of the government's port terminals fire department and Lieutenant A. L. Wilkerson of the quartermaster corps extinguished the fire with chemicals.

While it is not known how the explosion occurred, it is reported that Foreman Hill had borrowed a steel cold chisel and it is believed that he

Democrats Begin Attacks On the Tariff Measure

WASHINGTON, April 13.—(By the Associated Press.)—The Democratic attack on the administration tariff bill was opened today by Senator Simmons, of North Carolina, ranking member of the Senate finance committee who, in a statement, characterized it as "the most un-American bill ever framed." He predicted that its operation would "penalize our export business, which will mean in the end curtailment of production and increased unemployment on the farms, in the mines and in the factories."

At the same time senators of the Republican agricultural tariff bloc held the first of a series of meetings for the consideration of rates in the measure which were fixed by the finance committee majority at figures below those suggested by the bloc.

Senator Gooding, of Idaho, chairman of the bloc, said also that it was the purpose to take up American

BLACK DRAUGHT OVER 30 YEARS

"Saved Me Many a Sick Spell," Says Texas Farmer, Who Has Long Known Usefulness of Black-Draught.

Naples, Texas.—"I have used Thedford's Black-Draught for years—I can safely say for more than 40 years. I have known it for a substantial, well-known remedy, residing out on Route 3 from here.

"I am 43 years old, and when a small boy I had indigestion and was puny and my folks gave me a liver regulator. Then Black-Draught was advertised and we heard of it. I began to use Black-Draught and have used it, when needed, ever since. I use Black-Draught now in my house and certainly recommend it for any liver trouble.

"I have given it a thorough trial, and after thirty years can say Black-Draught is my stand-by. It has saved me many sick spells."

Mr. Cromer writes that the is "never out of Black-Draught," and says several of his neighbors prefer it to any other liver medicine. "I always recommend Black-Draught to my friends," he adds.

This valuable, old, powdered liver medicine is prepared from medicinal roots and herbs and has none of the bad effects so often observed from the use of calomel, or other powerful mineral drugs.

Black-Draught helps to keep the liver in trim, helping prevent or relieve such troubles as constipation, biliousness, indigestion, sick headache.

Be sure to get the genuine.—adv.

valuation at the meetings. There is a strong sentiment in the Senate for American valuation," he said. "I do not want to put all of our members on record as favoring it, but many of them are strongly impressed with the principle."

Pending a decision on the question by the bloc, Senator Gooding would not say whether a fight for American valuation would be made on the floor. He said, however, that it might be difficult to have the valuation basis changed in the Senate because of the great task that would be involved in rewriting practically all of the ad valorem rates in the bill.

At their session today, the bloc

members, after hearing spokesmen for the Southern Tariff association, decided to support the increased rates asked for by that association on nuts, rice and corn. The association also urged that the duties on sugar be advanced from 2 cents to 2 1/2 cents a pound on full duty and from 1.50 to 2 cents on Cuban sugar, but the bloc has yet to determine whether it will support these increases.

In his statement attacking the tariff bill, which was preliminary to the minority report on the measure, Senator Simmons said that even a cursory examination indicated that it was the highest tariff bill ever written. He added that a tariff "more

unsuited to present conditions, if we are to participate in world trade, could not well have been framed."

Have, Mont., is said to be the coldest place in the United States.

Keep Your Skin-Pores Active and Healthy With Cuticura Soap
See Obsolete Talcum, etc. everywhere. For samples address: Cuticura Laboratories, Dept. 5, Malden, Mass.

How Much Are You Taxed?

Our old friend Dooley said, "If anybody offers to give you something for nothing, do not hesitate. Call a policeman at once."

That is real "horse sense." Did you ever stop to consider what it costs to operate a Delivery Truck? Here are a few of the things for which you have to pay: Gasoline, Lubricating Oil, New Tires, Repairs and Overhauling, Loss in Value when sold or exchanged, and last but not least, salary of a Driver and usually a Helper. If you have ever owned a Truck, you know.

Do you know that telephone operators are paid salaries? Also that Order Clerks, Shipping Clerks and Porters get paid every week or month?

Who do you think pays these salaries and other expenses? If you have given it any thought, you will know that the customers do the paying. Just how much of it are you paying? And yet you are told it is "Free Delivery."

PIGGLY WIGGLY has eliminated the above expenses and that is one of the reasons that "year in and year out" you can obtain the best values in Groceries, Fruits and Vegetables for your money at PIGGLY WIGGLY.

FIVE-DAY RECESS TAKEN IN STRIKE NEGOTIATIONS

NEW YORK, April 13.—The anthracite miners and operators sub-committee on wage contract negotiations, which has been in session here since last March 15, took a five-day recess tonight without having begun formulation of an agreement which would settle the present strike. Members of the sub-committee announced they would renew their labor next week.

Two demands of 19 submitted by the miners prior to the strike were touched upon by the operators today in rebuttal of arguments already presented by the strikers.

Demand number 9, which calls for settlement of future grievances upon a basis of equity, without using force, was the first of the operators' demands. It was discussed, without any agreement being reached as to its incorporation in the new contract.

A sharp controversy was aroused when demand number 11 was introduced, providing for payment of non-tract workers on the legal basis of 2,000 pounds to the ton, instead of by the 2,240 of late. This demand was opposed by the operators on the ground that it would add nearly 10 per cent to the wages of the miners in addition to the 20 per cent increase sought in another of their demands.

S. D. Warriner, president of the Lehigh Coal and Navigation company and spokesman for the operators said that a shift to the "short ton" method of weighing the coal would contribute materially to the cost of production which the public would pay at the rate of \$3 per ton of coal purchased if all of the miners' demands were granted.

Representatives of the miners held that, since the legal ton weighs 2,000 pounds, and the product generally was sold to the consumer on that basis, the miner was entitled to payment for digging the extra 240 pounds.

Bituminous coal operators who have offices here today reported the receipt of telegrams from the Connellsville and Fayette regions of Pennsylvania, where the unions have been concentrating their organization efforts since the strike was called, April 1, that the strike was spreading.

All coal and coke operations of the H. C. Frick company were suspended today, said one operator. In another the bituminous operators' informants predicted that all of the steel industry's mines in the Connellsville region would close before the week end.

M'CORMICK IS SERIOUSLY ILL

NEW YORK, April 13.—John McCormick, world famous tenor, tonight was reported by his physician to be battling for his life in his Park avenue home, where he is suffering from a severe affliction of the throat.

His physicians announced that, while they believed the crisis was passed last night, the singer was not out of danger.

Mr. McCormick was taken seriously ill last Saturday. Removed to his home, he was found to be suffering from a combination of throat afflictions. These complications were due to a general infection of the throat, causing blood poisoning. On Monday, according to the physicians, the singer's throat had swollen to such an extent that he was unable to breathe. He suffered a similar attack on Tuesday night, they said, and was seriously ill all day yesterday.

According to the physicians, McCormick's singing voice will not be impaired through his illness, although they say he will be unable to sing for at least three months.

WOMAN CHALLENGES HER OPPONENT TO DEBATE

HUNTSVILLE, Ala., April 13.—Mrs. W. B. Edmondson, who is opposing Representative Ed Almon for the nomination for Congress in the eighth Alabama district, in an address to the League of Women Voters here, declared that she will wage an intensive campaign and challenge her opponent to a joint debate. Mrs. Edmondson is the owner of a large farm in Morgan county and is an expert agriculturist.

COUNTER PROPOSALS ARE PREPARED FOR

GENOA, April 13.—(Associated Press.)—The "Big Four"—Lloyd George, Harbord, Schanner and Janssen, have decided at a meeting to present a "united front" when the conference submits its counter proposals for the restoration of Russia.

This action is understood to imply formal acceptance by the four powers of the London experts' report as a basis for the treatment of the Russian situation.

IN-ELECT ALL DIRECTORS

BRANSON, Va., April 13.—At the meeting of the Board of Directors of the Branson Hotel and Casino, held here tonight, the board elected a new set of directors to succeed those who have served since the hotel's opening.

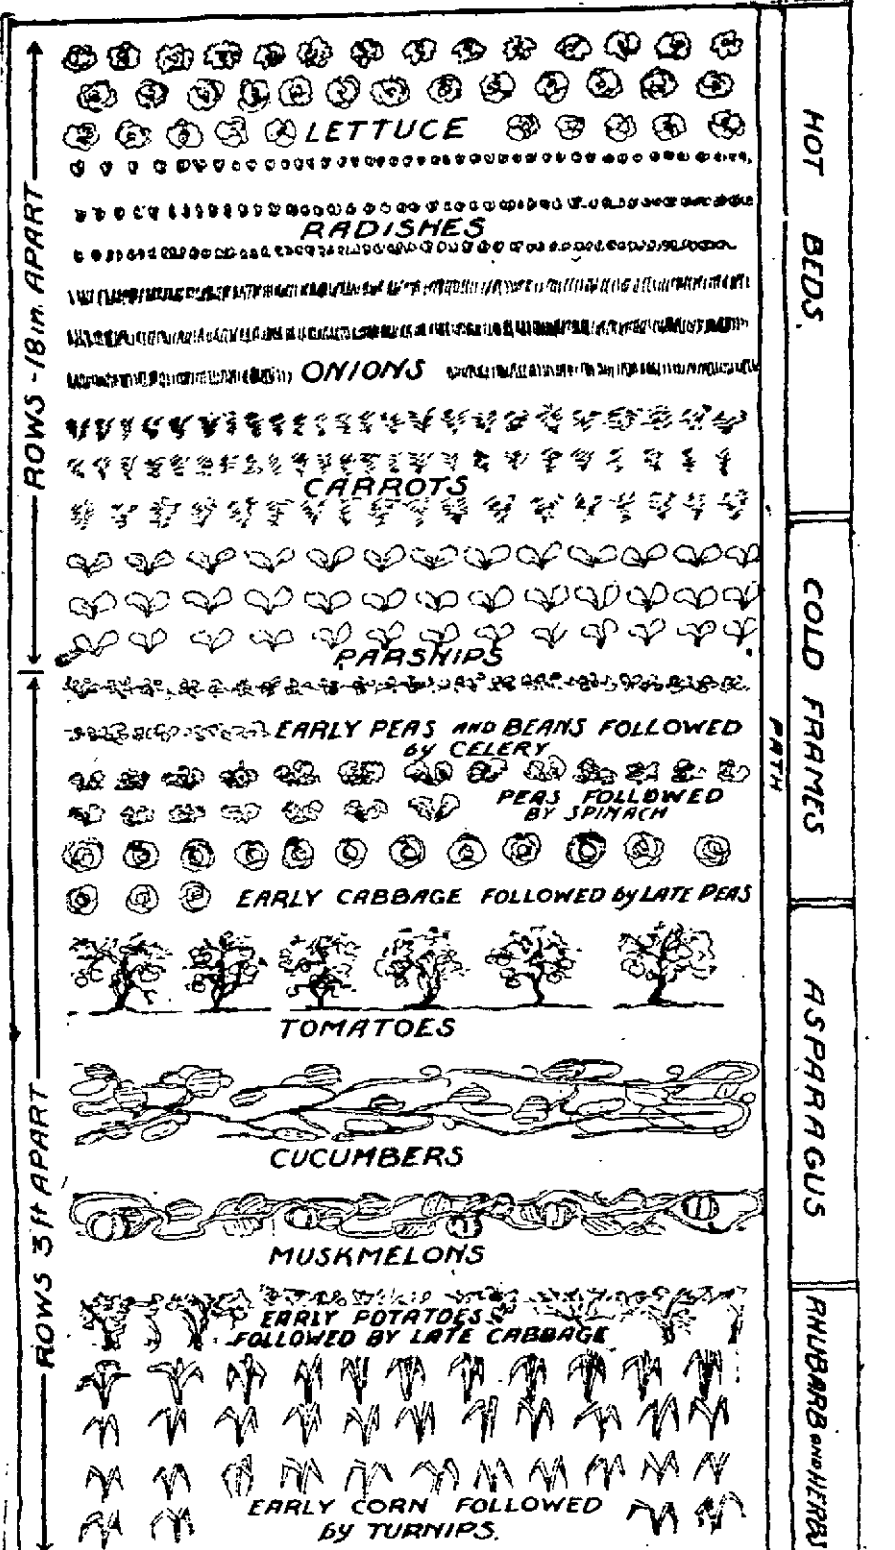

This Week in the Garden FINE WEATHER SENDS SPRING GARDENERS BACK TO SOIL

The first of a series of articles by Seth W. Shoemaker, Director, School of Agriculture, International Correspondence Schools.

THE annual crop of seed catalogues has bloomed again! Their alluring pages have, as usual, inspired thousands of home gardeners to duplicate during the coming summer the pictured wonders of field and garden. Is it possible to actually have such big red tomatoes as large as baseballs or long pods of tender peas the size of marbles?

Yes, it is possible, but it is not easy. Like most other things that are worth while, the management of a successful garden requires care, intelligent effort and a good deal of hard work. But success is crowned by the reward of fresh vegetables earlier, better and cheaper than they can be got from the corner store. And thrown in with such irresistible inducements is the exciting venture of making things grow.

Vegetables may be grown on ash piles and filled ground with proper management. If the prospective gardener has filled ground he may do fairly well if the soil is not too heavy, drains reasonably well and is well fertilized, particularly with manure.

Planting Plan for Home Garden, 50 by 90 Feet

No class of plants is more exacting as to soil requirements than vegetables. For success the soil must be friable so that it may be easily worked, not too light or with too much clay. It should also contain an abundance of humus. If too heavy—that is, if it is clayey so that it can be pressed into sticky balls when squeezed in the hand—it must have humus in liberal applications. If it is too light, as in the extremely sandy soils of the coast regions, it will pay to have incorporated with it several loads of heavier soil. Humus will also help to bring such soils into good mechanical condition. Humus is merely decayed organic matter, either in the form of manure or decomposed vegetable matter, such as leaves, roots or plowed under vegetation of any kind. For the home garden the most convenient form is good stable manure.

Apply the manure at once, but look carefully into the source of supply before buying it. It is best when partially rotted, but fresh manure may be used if it is not too stinky.

Manure without shavings is usually considered more valuable than manure containing a large quantity of shavings. Shavings may serve a useful purpose on a heavy soil by lightening it, but make a sticky soil too light. The tendency of shavings to make a sticky soil has been much exaggerated. This can be easily corrected with an application of lime. Sprinkle evenly on the ground at the rate of about one pound for every two square feet.

At this point many a promising garden has been spoiled. The temptation to rush ahead, buy a few seeds at the corner store, plant them at once and wait for developments is often irresistible. But the wise gardener will confine his garden to paper for a few days before he does anything else except perhaps to spade under his manure at convenient times.

Furrow gardening consists of making a definite plan of the garden, plotting out the rows, determining what they are to contain and how the succession of crops will be arranged. This will save endless work later on and will do more than any other one thing at this season to insure the success of the garden.

The accompanying drawing illustrates the sort of plan that will serve as a working basis for the season. It is so designed that the space of a garden 50 by 90 will be occupied all during the season and is arranged with necessary economy of land in mind.

After the plan has been made and space allotted to the various crops and after crops the varieties of each have been determined and ordered, the most important step in successful gardening, for quality vegetables cannot be produced from inferior seed. Varieties and seed selection will be discussed in this column next week.

New Photo Of Joffre Family

Here is a new picture of Marshal Joffre and family taken just before they left Seattle on a tour that will carry them across the country. The wife of the marshal and his daughter Germaine (left to right) and the marshal with Samuel Hill, who is escorting the party, in the rear.

WOULD PROVIDE ASSISTANCE FOR ALL THE VESSELS

WASHINGTON, April 13.—Proposed governmental aid to American shipping interests was calculated by framers of the administration merchant marine bill with a view to providing equitable assistance for every type of vessel. R. C. Merrill, director of the Shipping board's bureau of research today told the Senate commerce and House merchant marine committees.

In determining what nature of "direct aid" should be afforded, all methods used by other countries were considered, he said, adding that the discussion in time centered on three plans. In the end two of these, the committees were informed, were rejected because they did not take into consideration speed of ships in addition to their size and the distance covered by them.

The plan incorporated in the bill, Mr. Merrill contended, places proper emphasis on all three factors, and if put into force the financial aid of the government would assure the operation of large speedy liners as well as afford need assistance to owners of smaller ships.

Direct and indirect aids provided for in the bill pending before the two committees shave the effect, according to Mr. Merrill, of leveling the differentials by placing American shipping interests in position to pay the higher charges without loss in comparison with foreign countries.

The committees were told that the statement was all too common that the ingenuity of American crews could make up for the difference in operating cost. This is to a certain extent, Mr. Merrill said, may be true of passenger and passenger-cargo ships but it is a fallacy in the case of tramp steamers.

At this point many a promising garden has been spoiled. The temptation to rush ahead, buy a few seeds at the corner store, plant them at once and wait for developments is often irresistible. But the wise gardener will confine his garden to paper for a few days before he does anything else except perhaps to spade under his manure at convenient times.

ONLY LIQUOR CHARGE FACES "FATTY" NOW

SAN FRANCISCO, Calif., April 13.—Nothing but a federal charge of unlawful possession of liquor, for which the penalty is only a fine, stood tonight against the record of Roscoe C. (Fatty) Arbuckle, who had been facing manslaughter accusation for more than six months.

Arbuckle will plead guilty to the conference liquor charge, according to John T. Williams, federal attorney, who said that was his understanding of the conference he had today with Gavin McNab, Arbuckle's chief counsel. McNab, however, declined to admit such was the case, saying that in ten days he and the federal attorney "would meet to discuss the case."

The liquor complaint is an incident growing out of the party in the Hotel St. Francis which was followed by the death of Miss Virginia Rappé. The maximum penalty involved is \$500 fine. The remaining manslaughter charge against Arbuckle was dismissed today on motion of District Attorney Brady.

SECOND FIGHT AGAINST FLOOD

MEMPHIS, Tenn., April 13.—With the Mississippi river at Memphis showing only a slight fall, with a stationary stage predicted for tomorrow, followed by a gradual rise, as the flood waters in the upper river move southward, engineers here are preparing for a second fight to protect the cultivated lands back of the levees from overflow. Sand bags and other flood fighting implements were sent out to threatened points in large quantities today.

Reports received by the United States engineers here tonight were satisfactory. Major Lykert said. Conditions at points along the levee between Cairo and Paducah, Ill. and Louisville were unchanged, he declared.

WILL DOUBLE THE LENGTH OF LEVEES

HELENA, Ark., April 13.—Levee engineers at Old Town, 17 miles south of here, where additional flooding of the river line levee occurred last night, today announced that they intended to almost double the length of the sub-levees and barricades which have been built at that point.

The flooding which occurred last night is not so threatening as first reports indicated, engineers reported tonight. Additional men were put to work today extending the sub-levees and barricades.

DISTILLERY LOST 5 MILLION
DUBLIN, April 13.—(By the Associated Press.)—The Dublin distillery of this city has lodged with the town clerk of Dublin a claim for \$5,000,000 as its loss in the recent raid on the Dublin custom house's bonded stores.

INCENDIARISM IS GUARDED AGAINST BY AUTHORITIES

MIAMI, Fla., April 13.—City officials of Homestead said tonight that special policemen were still being maintained to guard tomato packing plants against incendiaries, two weeks which were received about two weeks ago following a strike of tomato packers.

Sunday night April 2, two tomato packing houses were destroyed by fire with a loss estimated at \$40,000. A residence at Florida City burned to the ground a couple of nights later. Subsequently Mayor Livingston of Homestead received a letter demanding \$16,000 under threat to "burn up the town." Special officers were hired but no more fires have broken out.

Officials of the two towns expressed the belief that there would be no trouble, anticipation of which has kept the citizenry in alarm for several days.

RESOLUTIONS OF REGRET
WASHINGTON, April 13.—The Senate late today adopted resolutions presented by Senator Simmons, expressing regret over the death of Representative Brinson, of North Carolina, and adjourned out of respect. Vice President Coolidge appointed Senators Simmons and Overman of North Carolina, Ashurst, Democrat, Arizona, Cawley, Democrat, Arkansas, Ladd, Republican, North Dakota, and Hartert, Republican, Oklahoma, as a committee to attend the funeral.

MOBO AUTO SOAP

A 100% pure vegetable oil soap that dissolves and removes every particle of dirt, grease and oil, and leaves your car as mirror-bright as when it left the paint shop.

Overcoming the Handicap of Distance

YOU can talk to any place in the United States where there is a telephone. You can even talk to Cuba! Your field is unlimited.

You may seldom, if ever, have occasion to talk to points hundreds of miles away, but you do have use for service to nearby places.

A telephone call will do away with the necessity of many time-consuming trips. A few minutes at the telephone often save hours of time.

The rates are reasonable, and station-to-station rates are greatly reduced after 8.30 P. M. The pages in the front of your telephone directory explain the different classes of calls and reduced rates fully. The minimum reduced rate is 25 cents.

Ask the operator for rates to any place.

MORE BUSINESS IN GOVERNMENT SAVING MONEY

NEW YORK, April 13.—Application of business methods to the various departments of the federal government has resulted in a saving of more than \$4,000,000 a day, Senator Frank Willis of Ohio, stated in an address tonight at the annual dinner of the American Paper and Pulp Association.

"More business in government is getting results," he said. "When an eminent political leader said a few years ago that \$300,000,000 per year could be cut from federal expenses without injury to the service, he was looked upon as a doctrinaire and theorist, yet the application of just plain business sense such as you use in your own affairs, has brought a saving of public funds five times \$300,000,000 in twelve months. Government can help business some, but business can help the government more."

FEDERAL BANK MAKES REPORT

WASHINGTON, April 13.—Combined resources and liabilities of the twelve federal banks at the close of business April 12 were reported tonight by the federal reserve board in thousands of dollars as follows:

Resources:
Gold and gold certificates 326,345.
Gold settlement fund F. R. board 509,369. Total gold held by banks 835,714.
Gold with federal reserve agents 2,091,844. Gold redemption fund 58,180. Total gold reserves 2,985,738. Legal tender notes, silver etc., 126,285. Total reserves 3,112,023.
Bills discounted.
Sec. by U. S. government obligations 210,656. All other 362,884. Bills bought in open market 33,611. Total bills on hand 667,151. U. S. bonds and notes 261,585. U. S. certificates of indebtedness: One year certificates 1,171,370. All other 163,876. Municipal warrants 192. Total earning assets 1,180,214.
Bank premises 38,928.
5 per cent redemption fund against F. R. bank notes 7,811. Uncollected items 546,371. All other resources 16,959. Total resources 4,902,286.

Liabilities:
Capital paid in 104,109. Surplus 215,395. Received for government franchise tax 2,213.
Deposits.
Government 38,634. Member bank reserve account 1,726,016. All other 38,381. Total deposits 1,803,031. F. R. notes in actual circulation 2,260,206. F. R. bank notes in circulation not liability 82,065. Deferred availability items 477,253. All other liabilities 17,907. Total liabilities 4,302,286.

Ratio of total reserves to deposits and F. R. note liabilities combined 77.7 per cent.

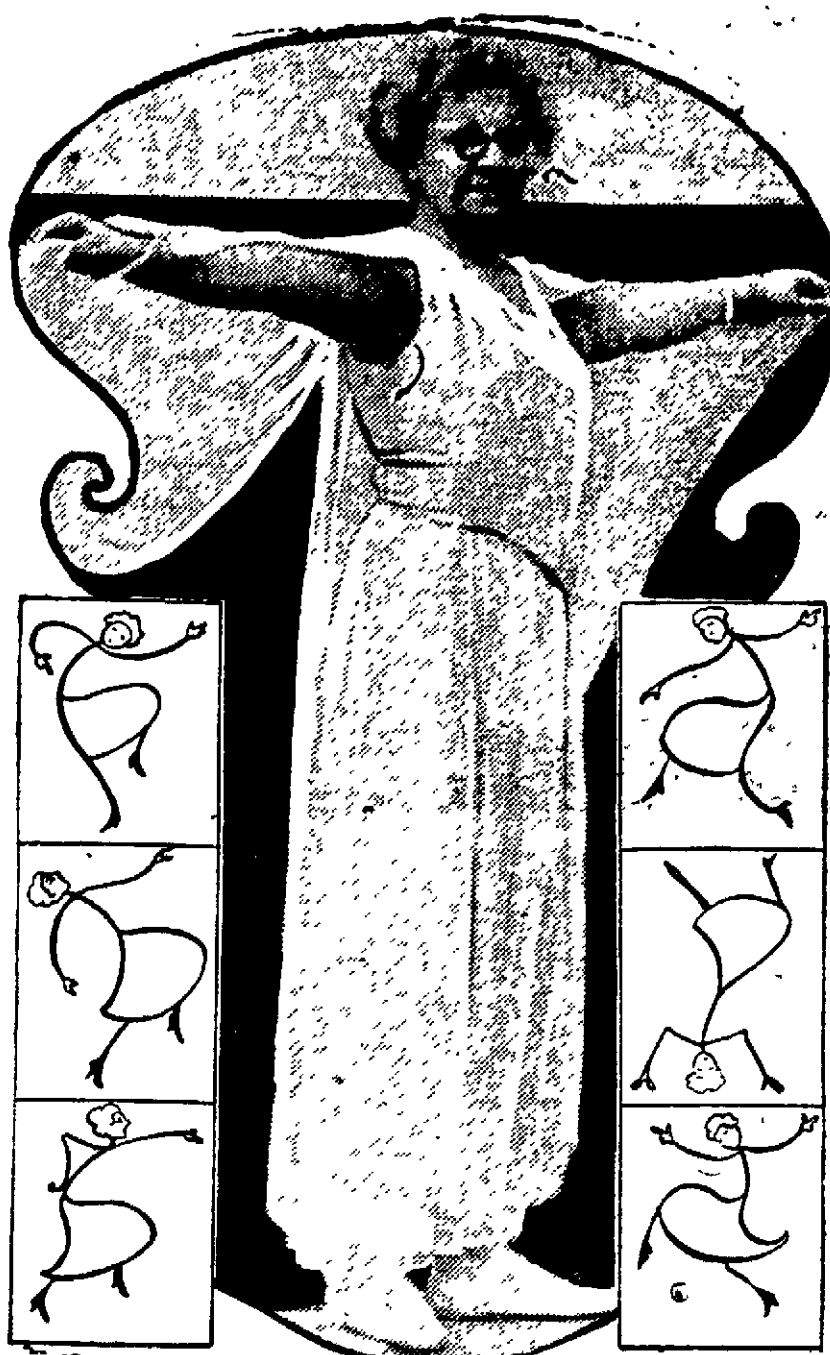

NEW FLYING PLANE.

ASHEVILLE, N. C., April 13.—Plans for a flying plane, which experts say will revolutionize aeronautics, have been approved by army aviation engineers, who will attend the first trial flights of the machine about June 1, the inventor, Scott Dillingham, automobile and engine expert of this city, said tonight.

ELKINS STILL IN DAZE.

ASHEVILLE, N. C., April 13.—Kenneth Elkins, farmer of this section, was still in a comatose condition tonight from a blow over the head struck early Wednesday morning by a horse. Elkins' alleged assailant is under \$5,000 bond. The assailant is said to have struck the blow following an argument over taxes.

60-YEAR-OLD GRANDMOTHER FINDS FOUNTAIN OF YOUTH

MRS. MARGARET JOSEPHINE BLAIR

"Found—the fountain of youth by a 60-year-old grandmother!" The woman who has made this discovery is Mrs. August Josephine Blair, of Los Angeles, who has started New York by acting like a 16-year-old. In this article, written especially for NEA service, she tells the secret of it.

BY MARGARET J. BLAIR.

FAT? Flabby? Sick?
Cheer up.
So was I.
But now at 60 I can turn a hand spring, dance for hours, indulge in all kinds of sport, and enjoy every minute of my life.
For 55 years surgeons, pathologists, neurologists and plain family physicians all gave me their undivided attention. Doctors pronounced me incurable. I suffered from a spinal curvature and rheumatism.
I was overweight—185 pounds.
I decided that they were all wrong. I decided that I was lazy. So I jumped up from a sick bed littered with prescriptions and danced to the strain of a phonograph.

Each sway of my body in cadence to the rhythmic meter of the music brought into play muscles which had remained dormant so long that they had ceased to function.

The scheme worked. I soon corrected the curvature of the spine, forgot all about my rheumatism and began to have the spirits of a 16-year-old. My weight came down to 133 pounds.

I sleep eight hours every night. I exercise regularly—to the strain of dance music.

I eat with discretion—rarely ever touching meat and never beef. I prefer nuts, uncooked prunes and olives. When despondency overtakes me I drink a gallon of water a day to wash away the shadows.

This regularity in eating, sleeping and in an everyday schedule of life brings a bloom to one's face that is lasting.

Anyone can do it—man or woman. All that is needed is a real desire to become healthy—plenty of water, some dance music and a sensible diet.

Cossack Chieftain Lanquishes In Cell

NEW YORK, April 13.—General Gregorie Semenov, Ataman of the Cossacks, was locked up in Ludlow street jail tonight, after a day of frantic efforts by several lawyers to get a bondsman who would give \$25,000 bail to Sheriff Nagle. Semenov was arrested last week on civil warrant and freed on bail, but his original bondsman refused to continue as surety.

The general gave himself up to Sheriff Nagle in the latter's office at 2:30 in the afternoon and from then until 4 o'clock sat watching with eager eyes every person who entered the door. But as each new person turned out to be anything but a prospective bondsman, the Cossack's countenance fell. Even the military mustaches which adorn his face seemed to droop as the time drew near for him to enter the sheriff's automobile for his trip to the jail.

Madame Semenov, his young wife, was courageous during the afternoon. She begged the sheriff to take her jewels for the bond. But he couldn't. He explained, although she could offer them to a bonding company as collateral.

This morning the general went to his lawyer's office and found there a representative of the surety company which had furnished his bail. He was told that because of the notoriety his case had brought, and because company officials thought it unprofitable to act as bondsman for a man charged with atrocities against American soldiers, they were going to surrender him at noon.

Just before noon, Colonel George Kroupsky, who was Semenov's chief aide in Russia and is now helping him here, was stopped by a policeman on Broadway and searched. Kroupsky had a revolver and narrowly escaped going to jail, until he finally showed a permit.

Just after 2 o'clock General Semenov, Madame Semenov and two or three friends, lawyers and interpreters, started for Sheriff Nagle's office. M. M. Beecher, counsel for the surety company, was there, and after Madame Semenov had counted her chain of pearls and her diamonds, which had been held as collateral, he turned the keys over to the sheriff.

Meanwhile, the proceedings brought against Semenov by the trustee for the Yovrova Home and Foreign Trading company, a New York concern, were called before Peter B. Olney referee in bankruptcy, and David W. Glaze, a Semenov attorney, was compelled to ask an adjournment because Semenov was held by the sheriff.

The hearing will go on tomorrow afternoon.

The general was worried about Madame Semenov, he said, because she has been ill.

When Colonel Kroupsky, who had been busy all afternoon showing the permit to carry a revolver to every deputy sheriff in the office, promised to care for his wife, the general smiled again, said he was ready and started for his cell.

Two weeks ago Captain Miller started out in search of the craft he has sought for weeks. Along about dusk he sighted a boat coming toward him without lights. He spotted the boat with his searchlight and found three white men and ten Chinese aboard her.

"Damn it, it seems though I'll never find that man I'm looking for," the Vidette captain remarked as he jotted down the number of his latest capture.

"Hold up at sea and given 15 cases of real stuff," he continued. "I suppose the other guilty one was stopped given the Chinese to bring to Miami for laundry clerks."

Tumulty Lands In A Blind Alley

NEW YORK, April 13.—The New York Times tonight made public a letter from Woodrow Wilson denying that he had sent or authorized anyone to convey a message to the Jefferson Day dinner here last Saturday night.

A message read at the dinner by Mrs. Montgomery Hare, chairman of the women's dinner committee, and attributed to the former president, said:

"Say to the Democrats of New York that I am ready to support any man who stands for the salvation of America, and the salvation of America is justice to all classes."

Thomas E. Rush, chairman of the committee, said that when he learned last Thursday that Joseph P. Tumulty, former secretary to the president, was to attend the dinner, he called him on the telephone and asked him to bring a message from former President Wilson, if possible. The message read at the dinner was given to him by Mr. Tumulty upon his arrival, Mr. Rush said.

When doubt as to the authenticity of the message first arose, Mr. Tumulty made an explanation in Washington in which he said:

"The message read at the banquet came merely in a casual conversation with me at Mr. Wilson's home on Friday last, when he remarked that he would support any candidate who stood for justice for all. There was nothing unusual in this, and it was not significant in any way from a political standpoint. He sent no telegram. He simply gave a casual message to me in a casual manner. It had nothing to do with any individual or any particular political situation."

This statement by Mr. Tumulty appears in the Times, under the headline: "Doubt is cast on Wilson's 'message' to the Cox dinner."

In his letter to the Times, Mr. Wilson said:

"I write to say that there need be no doubt about the matter. I did not send any message whatever to that dinner, nor authorize anyone to convey a message."

When informed of Mr. Wilson's letter by a Times representative in Washington tonight, Mr. Tumulty gave out the following statement:

"If Mr. Wilson says the message was unauthorized, then I can only say I deeply regret the misunderstanding which has arisen between us. I certainly would not have given the message if I had not believed it to be authorized."

Several hundred acres of land in France are devoted to the raising of young trees of peculiar shape, the wood of which is used for umbrella handles.

CONVICTS PLAN TO REDUCE CRIME

Segregation of Hardened Criminals From First Offenders Suggested

JOLIET, Ill., April 13.—Segregation of hardened criminals from the first offenders is the best way to reduce crime, convicts in the State penitentiary here today declared at a hearing conducted by the law enforcement committee of the American Bar association to get the criminal's view of the cause of law-breaking.

The committee members all agreed with the convicts.

The committee, made up of nationally known men, heard from seven witnesses, stories of organized crime rings, particularly in Chicago, bribery of police officials and of "schools for crime."

One prisoner told of perfected crime organizations in Chicago which guaranteed to get a man out of any trouble through graft and bribes, and explained that had he been able to raise \$600, he could have bribed officials in the State's attorney's office and would not now be in the penitentiary.

One convict said prohibition increased crime while another termed the Cook county jail at Chicago the greatest "crime school" in the country. Several explained that the average first offender is experienced and efficient in crime after serving a sentence with old timers who would put him through a course of instruction during his term.

RIGLER HOPES TO HIT GUSHER

National League Umpire Has Visions of Wealth in Gas

Charley Rigler, National League umpire, has visions of some day wiring President Heydler that he can set himself another umpire.

Rigler, for a number of years, has been connected with the East Ohio Gas Company of Cleveland during the winter months.

His position is with the leasing department of the company. Rigler is a glib talker. Years of argument with National League players have perfected him along those lines.

When a promising spot looms up for the drilling of gas well, it was up to Rigler to secure a lease on said property.

On the side Rigler has been doing a bit of leasing for himself. He has purchased the right on a couple of pieces of property in West Virginia. Two gas wells are now being sunk.

If they come in dry, then Charley will keep on calling balls and strikes, but if they hit a gusher, well, President Heydler can start looking for a new umpire.

"I have been taking chances all my life," is the way Rigler puts it. "If these gas chances come through then I'll retire."

SURPRISE IS SPRUNG.
PINEHURST, N. C., April 13.—A surprise was sprung in the semi-final matches of the North and South tennis championships today when Raymond Bidwell and Josiah Wheelwright, of Boston, defeated the veteran, Bauls C. Wright and S. Howard Voshell, of New York, 6-3, 6-4, in the men's doubles.

Voshell won their semi-final match in the mixed doubles, defeating Miss Helen Gilletteau, of New York, and Bidwell, 7-5, 7-5. J. Ed Jones and Son, Ainslie, of Providence, reached the finals of the men's doubles.

I'm awfully proud of this guarantee

by Mrs. Mary Preston
Cooking Expert and Food Analyst

Did you ever feel so pleased about anything that you just wanted to tell everybody about it? Of course you have. That's the way I feel about the guarantee that The Heekin Company puts on its baking powder.

It's such a strong, satisfying kind of a guarantee. No red-tape, or restrictions. It's a straight money-back offer with no questions asked. And you get your money returned for the eggs, flour, milk and other ingredients you use, as well as for the baking powder. But here's the guarantee in full:

If anything you bake—using Heekin's—does not turn out to your entire satisfaction, the price of the full can of baking powder, and the price of the ingredients in whatever you bake will be returned to you. Simply list the prices and send with your name and address to The Heekin Company, Cincinnati, Ohio.

The only reason The Heekin Company can make such a generous offer, is because they know that any woman can get successful baking results with Heekin's. A better baking powder, cannot be made—nor a purer one (no foreign ingredients are added to Heekin's to create an unnatural effervescence or to give a false impression of quality).

Heekin's is a full-strength baking powder that retains its strength to the last spoonful. Buy, a can today and try it—you'll like Heekin's.

Mrs. Mary Preston

NO MEMORIAL SERVICES FOR

(By GEORGE H. MANNING.)

WASHINGTON, April 13.—The plans for holding memorial services in the House of Representatives some Sunday in May for the late Representative Rorer of Danville have been cancelled on account of the family expressing the wish that they be not held.

It is customary for the House and Senate to hold memorial services for their departed members several months after their death. Usually the members from their States and some other leading members of the Senate or House deliver eulogies. The family of the late member is invited to attend and later the eulogies are printed in book form and delivered to the bereaved.

It was planned to hold the memorial services for Mr. James some Sunday in May. A few days ago members of Mr. James' family requested through Representative James I. Woods of Roanoke, that they be not held. Their wishes will be observed.

A little later it is planned to hold memorial services for the late Representative H. D. Flood, who died in December after 22 years of service in the House.

STRIKE NOT YET FELT

WASHINGTON, April 13.—Secretary Hoover said today the department of commerce had as yet noted no appreciable effect of the coal strike on business. He declared the country's coal supply appeared to be sufficient for normal consumption and with the exception of the men laid off by railroads there has been no material increase in unemployment. He added that he knew of no steel mills closed because of lack of coal.

CAPTAIN MAKES TWO HAULS WHILE ON OTHER MISSION

MIAMI, Fla., April 13.—Twice in as many weeks, Captain R. S. Miller, commander of the coast guard cutter Vidette, and his little crew, have come out upon the high seas in search of a mysterious craft, and twice has the captain and his ocean broncho ridden into unexpected adventure, proving good catches, but allowing the real object of the quest to remain uncaught.

Tonight Captain Miller and the Vidette were cruising off Cape Florida light when a craft believed to be the desired object was sighted. It was watched for an hour, the small artillery aboard was cleared for action and the search light trained on the craft.

The boat was overhauled after a chase and 75 cases of whisky seized and five men, one a negro, arrested. In a statement to Captain Miller one of the white men said that he and his party were fishing off Ragged Key when a "sloop" bore down upon him with the liquor aboard.

"Take this to Miami and leave it there. We don't want it. Give it to some hospital," he said the captain on the sloop told him.

Two weeks ago Captain Miller started out in search of the craft he has sought for weeks. Along about dusk he sighted a boat coming toward him without lights. He spotted the boat with his searchlight and found three white men and ten Chinese aboard her.

"Damn it, it seems though I'll never find that man I'm looking for," the Vidette captain remarked as he jotted down the number of his latest capture.

"Hold up at sea and given 15 cases of real stuff," he continued. "I suppose the other guilty one was stopped given the Chinese to bring to Miami for laundry clerks."

Two weeks ago Captain Miller started out in search of the craft he has sought for weeks. Along about dusk he sighted a boat coming toward him without lights. He spotted the boat with his searchlight and found three white men and ten Chinese aboard her.

"Damn it, it seems though I'll never find that man I'm looking for," the Vidette captain remarked as he jotted down the number of his latest capture.

CANADA'S PHASE OF THE STILLMAN CASE IS ENDED

MONTREAL, April 13.—The Canadian phase of the suit of James A. Stillman, New York Banker, to divorce Mrs. Anne U. Stillman and disown little Guy Stillman ended today in the trial before Commissioner Gudin.

Only one witness was called by the plaintiff in completing the Canadian evidence. The witness, Tom Gay, constable of Three Rivers, Quebec, was understood to have testified that Lizzie Wilson, of Three Rivers, signed in his presence a statement that she never had miscoqueted herself with Fred Beauvais, Indian guide named as co-respondent by Mr. Stillman.

Yesterday the Wilson girl swore that a Canadian attorney, representing the banker, had told her that if she had not seen Mrs. Stillman acting improperly with Beauvais, then it was Lizzie herself who had misbehaved with the guide.

The Stillman case now shifts back to the United States, where in a few weeks the attorneys expect to conclude the trial.

GYROSCOPE TO STABILIZE SHIPS

PHILADELPHIA, April 13.—Sea sickness and "sea legs" will be eliminated by the installation on giant ocean liners of a huge gyro-stabilizer, weighing 120 tons, a test of which was witnessed at the Westinghouse Electric and Manufacturing company's plant today by a number of naval officers, engineers and representatives of shipping concerns. The test was declared to have been a "pronounced success."

Designed to prevent the rolling or the largest ocean going ships, those who witnessed the test said that through the use of the device passengers would be able to stroll on the decks regardless of how rough the weather might be.

The device would not eliminate pitching or riding of great waves in a storm, however, the experts said. Aside from the greater comfort to passengers as a result of the steadiness of the ship, it also was stated that the stabilizer could be used to roll a vessel, which would be effective in freeing ships grounded on shoals.

CONSIDERATION OF BONUS BILL IS DELAYED

WASHINGTON, April 13.—Consideration of the soldiers bonus bill has been delayed by the Senate finance committee until next Monday. At that time, it was stated today at the committee offices, decision will be had as to a program. It is the present intention to hear officials of the American Legion next week, probably on Wednesday.

BILLY EVANS' BOOK DELAYED

The Billy Evans Simplified Baseball Rule Books, which will be given free to all Register subscribers, were to arrive the first of the week but for some unknown reason they have been delayed. Many Register mail subscribers have written for the book which will go forward the day they are received by the Register. City subscribers of the Register will be notified of the arrival of these books through the press and can get a copy by calling at the business office.

HERE AT LAST is a curtain cleaning service that conforms with a woman's ideals. No shrinking, no stretching, every curtain dried to exactly its original size. Corners always skuaire and shaped, curtains hang correctly, curtains gently patted down, no pin holes or hook marks to mar them, edges and scallops finished smoothly, daintily and evenly. Curtains soiled with the soot of winter need not be a source of concern this spring even for a moment. Through a new saving service which we are now able to offer, you can have them washed gently, dried precisely to measure, and daintily dressed up again without so much as a hook mark or pin hole to mar them. We invite you to come and see this wonderful service when you have seen if you will want your curtains done this way. 50c per window during the month of April. The Danville Laundry Co., Telephone 220. RB

Reg Fri. M. & Fri. Sat.
TO MR. WOMACK'S COUNTRY friends—We would suggest they come in and share in this sacrifice sale we will only be here 15 days. The Brown Salvage Co. 4-14B3t

Do You Know the Advantage

Of the extractor over the efficient but slow and cloth-destroying wringer? It is just the story of efficiency and large scale operations. It is the thing which makes progress possible. It helps to keep the cost of laundry down too.

BEADS MAKE MILADY'S FROCK WEIGHTY MATTER

It's a good thing the bead vogue
came along as dress fabrics began
to get more and more sheer, and skirts
shorter. Otherwise many a fair
woman's count and diaphanous drap-
eries might have fluttered away at the
first stiff breeze encountered.

The dressy afternoon frock for this
season is distinguished by simplicity
of line but extreme elegance of fabric
and ornamentation. Heavy beading,
rich embroidery, or lace makes the
afternoon frock for formal wear a
thing of beauty and a joy for the
whole season.

Chantilly laces are much used in
black, brown, navy, gray and ecru.
Other all-over laces and deep flounces
are used, dyed to match the fabric of
the gown. Often heavily beaded
panels of chiffon are used over the
lace flounces.

Jet beads are most used for street
frocks, and are seen also on many af-
ternoon and evening gowns, but color,
either delicate or vivid, is seen every-
where in the beads. Steel beads are
used to advancing on navy blue; gold,
bronze or yellow beads appear on
many brown frocks.

The trick of making the sleeves of
another color, frequently of another
fabric more sheer than the body of
the dress, is an interesting develop-
ment in afternoon dresses.

One such combination imported

from Paris is of sand-colored Canton
repe with long, wide sleeves of henna
Georgette heavily embroidered in an
all-over design in yarn the exact color
of Canton silk. The henna note was
introduced again in a narrow piping
where the long waist was joined to
the straight skirt.

Navy and beige is also much used
in these two-color costumes, with the
navy administered in sparing doses.

Quality Tells

Do not look for price only when having your suit made.
We do only high-class tailoring and invite comparison of
price and quality.

Your own selection from our Splendid line of Spring
Woolens, made to your individual measurements, at prices
from \$25.00 to \$45.00.
